NJROTC Drill Manual
CHAPTER 1
INTRODUCTION TO DRILL

1000. GENERAL

1. The Naval Junior Reserve Officers Training Corps Drill Manual is designed to provide uniformity and standardization for all NJROTC organizations. This manual prescribes procedures for all close order drill and military ceremonial evolutions.

2. The NJROTC Drill Committee conducted a review of all drill concerning NJROTC in order to standardize the way drill is conducted for cadets. As a result, this manual was developed to mirror MCO P5600.20, Marine Corps Drill and Ceremonies Manual (MCDCM), but was tailored to meet the needs of NJROTC at the company and battalion level. Effective immediately, this manual is the primary source document for all NJROTC drill issues at the company and battalion level. In rare cases involving regimental units and only as directed by this manual, refer to the MCDCM. Instructors will only deviate from prescribed procedures when expressly authorized for specific provisions of this manual.

3. Online Access
   a. MCO P5600.20. Units may access the MCDCM at http://www.usmc.mil.
   b. NJROTC Drill Manual. Units may access this drill manual at http://www.NJROTC.org. This website not only contains an electronic version of this manual but also sample LOIs for the various ceremonies described in this manual.

4. Changes to this manual. Your recommendations/comments to improve this manual are welcome. Please forward any recommendations to NETC (Attention: Curriculum Committee). Use the NJROTC Program Academic Materials Form which is located at www.njrotc.org/main. Please forward all changes to michael.s.Henderson@navy.mil

5. Training Time Out. During military drill exercises, a Training Time Out (TTO) should be called if cadets and instructors are concerned for their personal safety, or safety of others. When a TTO has been called, the military drill exercise must stop, the discrepancy corrected, and then if possible, continue the training. The TTO is an appropriate means for a cadet to obtain relief if he or she is experiencing pain, heat stress, or other serious discomfort during military drill.

1001. PURPOSE OF DRILL

1. Commanders use drill to:
   a. Move units from one place to another in a standard, orderly manner.
   b. Provide simple formations from which combat formations may be readily assumed.
   c. Teach discipline by instilling habits of precision and automatic response to orders.
   d. Increase the confidence of cadets through the exercise of command, by the giving of proper commands, and by the control of drilling troops.
   e. Give cadets an opportunity to handle individual weapons.

2. Purpose of Formations
   a. To build unit cohesion and esprit de corps by recognizing cadets during awards and promotion ceremonies.
   b. To maintain continuous accountability and control of personnel.
c. To provide frequent opportunities to observe the appearance and readiness
of the uniforms, arms, and equipment of the individual Cadet.

d. To keep the individual Cadet informed by providing the means to pass the
word.

e. To develop command presence in unit leaders.

f. To instill and maintain high standards of military bearing and appearance
in units and in the individual Cadet.

g. To add color and dignity to the daily routine by reinforcing the
traditions of excellence associated with close order drill.

3. Scope. This manual prescribes drill for general use. Diagrams shown must be
adapted to the strength of the unit and available space. Unless otherwise
stated, whenever the masculine gender is used, both male and female gender is
implied.

1002. DEFINITIONS. The following definitions are standard terms used throughout
this manual.

1. **Alignment.** The dressing of several elements on a straight line.

2. **Assembly Area.** A designated location for forming units of platoon size or
larger in preparation for a parade, review or ceremony.

3. **Arms.** A term used to normally designate the service rifle but can refer to any
weapon. When in formation and a mix of weapons is carried the term arms will be
used to designate all types of weapons.

4. **Base.** The element on which a movement is regulated.

5. **Cadence.** A rhythmic rate of march at a uniform step.

6. **Center.** The middle element of a formation with an odd number of elements (See
figure 1-1a) or the left center element of a formation with an even number of
elements. (See figure 1-1b.)

7. **Ceremony.** A formal military formation designated to observe a specific
occasion.

8. **Column.** A formation in which elements are placed one behind the other. A
section or platoon is in column when members of each squad are one behind the
other with the squads abreast of each other.

9. **Commander of Troops (COT).** The COT is the senior Cadet taking part in the
ceremony.
Figure 1-1a.--Center (Odd Number of Elements), Depth, and Front.

Figure 1-1b.--Center, Even Number of Elements.

10. **Depth.** The space from head to rear of an element or a formation. (See figure 1-1a.) The depth of an individual is considered to be 12 inches.
11. **Distance.** The space between elements in the direction of depth. Between individuals, the space between your chest and the person to your front. Between cadets in formation, the space from the front of the rear unit to the rear of the unit in front. Platoon commanders, guides, and others whose positions in a formation are 40 inches from a rank are, themselves, considered a rank. Otherwise, commanders and those with them are not considered in measuring distance between units. The color guard is not considered in measuring distance between subdivisions of the unit with which it is posted. In Cadet formations, the distance between ranks is 40 inches. (See figure 1-2.)

![Figure 1-2.--Distance and File.](image)

12. **Double Time.** Cadence at 180 steps (36 inches in length) per minute.

13. **Element.** An individual, squad, section, platoon, company, or other unit that is part of a larger unit.

14. **Extended Mass Formation.** The formation of a company or larger unit in which major elements are in column at close or normal interval and abreast at a specified interval greater than normal interval.

15. **File.** A single column of cadets one behind the other.

16. **Flank.** The right or left extremity of a unit, either in line or in column. The element on the extreme right or left of the line. A direction at a right angle to the direction an element or a formation is facing.

17. **Formation.** Arrangement of elements of a unit in line, in column, or in any other prescribed manner.
18. **Front**. The space occupied by an element or a formation, measured from one flank to the other. (See figure 1-1a.) The front of an individual is considered to be 22 inches.

19. **Guide**. The individual (base) upon whom a formation, or other elements thereof, regulates its march. To guide: to regulate interval, direction, or alignment; to regulate cadence on a base file (right, left, or center).

20. **Head**. The leading element of a column.

21. **Interval**. The lateral space between elements on the same line. (See figure 1-3.) Interval is measured between individuals from shoulder to shoulder. It is measured between elements other than individuals and between formations from flank to flank. Unit commanders and those with them are not considered in measuring interval between elements of the unit. Normal interval between individuals is one arm's length. Close interval is the horizontal distance when the left hand is placed on the left hip.

![Figure 1-3.--Interval and Rank.](image)

22. **Left (Right)**. Extreme left (right) element or edge of a body of cadets.

23. **Line**. A formation in which the elements are side by side or abreast of each other. A section or platoon is in line when its squads are in line and one behind the other.

24. **Line of March**. The line on which individuals or units are to march on.

25. **Line of Troops**. The line on which cadets are to form when in formation.

26. **Loosened Sling**. Indicates a sling adjusted for the movement sling arms.

27. **Mass Formation**. The formation of a company or larger unit in which the major elements are in column at close interval and abreast at close interval.

28. **Muffling**. The procedure of draping colors for mourning with a mourning streamer or black bunting. It also refers to the process of muffling the musical instruments of a band for specific types of ceremonies.
29. **Pace.** The length of a full step in quick time, 30 inches.

30. **Parade.** A parade is a ceremony that involves the movement of marching units.

31. **Parade Sling.** A sling that has all excess slack removed and is taut. The keeper is adjusted and locked in a position next to the sling tip. The sling lies on the left side of the rifle.

32. **Piece.** An individual firearm such as a rifle.

33. **Point of Rest.** The point toward which all elements of a unit establish their dress or alignment.

34. **Quick Time.** Cadence at 112 to 120 steps (12, 15, or 30 inches in length) per minute. It is the normal cadence for drills and ceremonies.

35. **Rank.** A line of cadets placed side by side.

36. **Review.** A review is a type of ceremony that omits certain elements found in a parade, but includes an inspection (trooping the line) not found in a parade.

37. **Rigged.** This term refers to the condition when uniforms and equipment are properly fitted out in the manner for which they were intended for use. Swords are considered rigged when attached to the sword sling. A Cadet is rigged when wearing the prescribed uniform or equipment.

38. **Slow Time.** Cadence at 60 steps per minute. Used for funerals only.

39. **Snap.** In commands or signals, the quality that inspires immediate response. In drill the immediate and smart execution of a movement.

40. **Step.** The distance from heel to heel between the feet of a marching individual. The half step and back step are 15 inches. The right and left steps are 12 inches. The steps in quick and double time are 30 and 36 inches, respectively.

41. **Unit Leader.** Is the individual who is drilling the unit. This can be any individual who is conducting drill or can be those assigned a specific billet such as squad leader, mustering petty officer, platoon commander, etc.

42. **Strong Grip.** The strong grip is when the thumb is wrapped around the front of the staff with the fingers wrapped to the rear. (See figure 1-4.)

43. **“V” Grip.** The "V" grip is with the staff placed in the "V" formed by the thumb and forefinger with the fingers extended and joined. (See figure 1-5.)

1. Training cadets in drill is an important duty. From the beginning of their assignment as leaders, cadets should take pride in being considered efficient in teaching drill. If they know the drill regulations and how to instruct, they will gain the respect and confidence of those they command.
2. In addition, good leaders must:
   a. Follow regulations strictly, as an example to the cadets under instruction.
   b. Have energy, patience, and spirit.
   c. Have military neatness and bearing.
   d. Observe cadets closely, immediately correcting any mistakes noted.

3. When instructing drill movements the system described by the acronym P.C.W.C. will be used to ensure all required information is provided. P.C.W.C. stands for:
   (P) Purpose of the movement.
   (C) Number of Counts involved in its execution.
   (W) When the movement may be executed.
   (C) Commands to cause the movement to be executed.

4. When instructing drill movements for unit movement the system described by the acronym P.F.W.C will be used to ensure all required information is provided. P.F.W.C. stands for:
   (P) Purpose of the movement.
   (F) Formation from which the movement is executed.
   (W) When the movement may be executed.
   (C) Commands to cause the movement to be executed.

5. When the leader corrects a movement, the individual or unit should immediately be required to repeat the movement properly.

6. Before a drill period, a leader should thoroughly study the movements to be executed.

7. When teaching drill, leaders may place themselves wherever they can best control the cadets, make corrections, and ensure proper performance. Refer to paragraph 8000.9 and 10 for additional information about the unit leader’s position.

8. The leader briefly explains and demonstrates each new movement prior to its execution by the cadets. The cadets should take proper positions unassisted. Each position or movement must be thoroughly understood before another is attempted.

9. Drill periods should be short but frequent. Snap should be required in every movement.

1004. INSTRUCTION GROUPS

1. The basic instruction group is the squad. Its size facilitates individual instruction.

2. Cadets who learn slowly should be placed in special squads. The best leaders available should drill these squads.

1005. COMMANDS AND THE COMMAND VOICE
1. There are four types of commands: preparatory commands, commands of execution, combined commands, and supplementary commands. All commands in this manual are shown in quotation marks and **bold print**, e.g., “Present, ARMS.”

   a. The preparatory command indicates a movement is to be made and may also indicate the direction of the movement. In this manual, preparatory commands are shown beginning with a capital letter followed by lower case letters. The comma indicates a pause between the preparatory command and the command of execution. Examples would be “Forward,” “Left,” “Platoon,” “About,” etc.

   b. The command of execution causes the desired movement to be executed. In this manual, commands of execution are shown in **CAPITAL LETTERS**. Examples would be “MARCH,” “FACE,” “ATTENTION,” etc.

   c. With the combined command, the preparatory command and the command of execution are combined. In this manual combined commands are shown in **UNDERLINED CAPITAL LETTERS**. Examples would be “AT EASE,” “REST,” “FALL IN,” etc.

   d. Supplementary commands are commands that cause the component units to act individually. An example would be the commands squad leaders would give to their individual squads following the platoon commander's preparatory command, “Column of Files From the Right,” and before the command of execution “MARCH.” In this manual supplementary commands may be shown as preparatory commands, commands of execution or combined commands, depending on the movement.

2. When giving commands, commanders face their cadets.

   a. For company formations or larger, when commanding marching cadets from the head of a column or massed formations, commanders march backward while giving commands.

   b. When commanding a unit that is part of a larger unit, commanders turn their heads to give commands, but do not face about except when the unit is halted and the smaller units are in line. In this case, the leader faces about to give all commands except to repeat preparatory commands, for which turning the head is sufficient.

3. Commanders of platoons and larger units, when drilling as a part of a still larger unit, repeat all preparatory commands or give the proper new command or warning. There are three exceptions to this.

   a. The first is that no repetition is necessary for combined commands such as “FALL IN,” “FALL OUT,” “REST,” or “AT EASE.”

   b. The second is that no repetition of command is necessary when a unit is in mass formation.

   c. The third exception is that no repetition of command is necessary during parades and ceremonies where the commander of troops, adjutant, etc., may be clearly heard by all hands; or the commander of troops and adjutant give combined commands and subordinate unit commanders cause their units to execute the command independently (e.g., when the regimental commander gives the combined command to “PORT ARMS” subordinate battalion commanders would give the command of “Port, ARMS,” so that their battalion would execute the command as an independent unit of the regiment).

4. If at a halt, the commands for movements, which involve marching at quick time in a direction other than to the direct front, such as “Column Right, MARCH,” are not prefaced by the preparatory command, “Forward.”

5. The only commands that use unit designations, such as “Battalion” or “Company,” as preparatory commands are “ATTENTION” and “HALT.” Such commands shall have no further designation added (e.g., “First Battalion, ATTENTION” or “Company C, HALT”). Commands shall be given only as stated herein.

6. A command must be given loud enough to be heard by all members of a unit.
a. Good posture, proper breathing, and the correct use of throat and mouth muscles help develop a commander's voice.

b. Projecting the voice enables one to be heard at maximum range without undue strain. To project a command, commanders must focus their voices on the most distant individuals. Good exercises for voice projection are:

1. Yawning to get the feel of the open mouth and throat.
2. Counting and saying the vowel sounds “oh” and “ah” in a full, firm voice.
3. Giving commands at a uniform cadence, prolonging each syllable.
4. When practicing, stand erect, breathe properly, keep the mouth open wide, and relax the throat.

c. The diaphragm is the most important muscle in breathing. It is the large horizontal muscle that separates the chest from the abdomen. It automatically controls normal breathing, but must be developed to give commands properly. Deep breathing exercises are one good method of developing the diaphragm. Another is to take a deep breath, hold it, open the mouth, relax the throat muscles, and snap out a series of fast “hats” or “huts.” Expelling short puffs of air from the lungs should make these sounds. If properly done, you can feel the stomach muscles tighten as the sounds are made.

d. The throat, mouth, and nose act as amplifiers. They give fullness to and help project the voice. In giving commands, the throat should be relaxed. The lower jaw and lips should be loose. The mouth should be open wide and the vowel sounds (a, e, i, o, u) should be prolonged. Consonants (letters other than vowels) and word endings should be curt and sharply cut off.

e. The position of attention is the proper position for giving commands. A leader who demonstrates exceptional bearing will be imitated by other cadets, and those cadets will be inspired to respond to commands with snap and precision. All cadets commanding armed troops will be armed. When giving commands, drilling troops, or making reports, the rifle will be carried at right shoulder arms, the sword will be carried at the carry sword position, and the pistol will be carried in the holster. Facing movements by commanders of armed troops may be executed while at right shoulder arms (See figure 1-6b).

a. Position of Attention      b. Right Shoulder Arms      c. Carry Sword
Fig. 1-6 Correct Position for Giving Commands.
f. Distinct commands inspire cadets. Muffled or unclear commands confuse them. All commands can be given correctly without loss of effect or cadence. To give distinct commands, you must emphasize enunciation; make full use of the tongue, lips, and lower jaw; practice giving commands slowly, carefully, and in cadence; and then increase the rate of delivery until the proper rhythm (112 to 120 beats per minute) is reached and each syllable is distinct. Raising the hand to the mouth to aid in projecting commands is not proper.

g. Inflection is the rise and fall in pitch, the tone changes of the voice.

   (1) Preparatory commands should be delivered with a rise and inflection in the voice (e.g., "Baa Talion," "Plaa Toon," "Fooyward," "To the Rear," etc.). In particular those preparatory commands that cause supplemental movements should be heavily accented on the last syllable (e.g., the command "Present, Arms," the preparatory command Pree(pause) ZENT" causes those armed with swords to execute the first count of the movement and the national color to go to the carry.). Another example is "OffiCers, Center, MARCH." On the preparatory command of "OffiCers," those armed with swords go to the carry, on the preparatory command of "CennnTER," the officer's step and/or face).

   (2) A command of execution is given in a sharper and higher pitch than the tone of the preparatory command's last syllable. A good command of execution has no inflection, but it must have snap. It should be delivered with sharp emphasis, ending like the crack of a whip. If properly given, troops will react to it with snap and precision.

   (3) Combined commands such as "FALL IN" are delivered without inflection. They are given in the uniform high pitch and loudness of a command of execution.

1006. GENERAL RULES FOR DRILL

1. Certain drill movements may be made toward either flank. This manual explains such movements in one direction only. To move to the other direction, it is necessary to substitute the word "left" for "right" as shown in parentheses.

2. The command, "AS YOU WERE," cancels a movement or order started but not completed. At this command, troops should resume their former positions.

3. While marching, alignment is maintained toward the right, except:

   a. Upon the command "GUIDE LEFT" or "GUIDE CENTER," alignment is maintained toward the left or center until the command "GUIDE RIGHT" is given.

   b. Regardless of the direction in which alignment is established, at the command of execution for a drill movement involving marching, the direction of alignment is toward direction of the movement (e.g., if the command of Column Left, MARCH" is given, the unit aligns to the left until the column movement is completed.). Upon completion of the drill movement, alignment will be in the direction established prior to commencing the movement.

   c. In a column of platoons, the guide of the leading platoon controls direction and distance, and maintains the cadence counted by the commander. Guides of the following platoons control distances and follow the direction and cadence set by the leading guide.

4. Slight changes in direction are made by:

   a. Adding "Half" to the preparatory command for turning or column movements; for example, "Column Half Right (Left), MARCH," changes direction 45 degrees.

   b. At the command "INCLINE TO THE RIGHT (LEFT)," guides change their direction of march slightly to the right (left).

5. Platoons in a company and individuals in a squad are numbered from right to left in line, and from front to rear in column. Squads in a platoon are numbered from front to rear in line and from left to right in column.
6. Posts of officers, noncommissioned officers, guidon bearers, and special units are shown in figures or explained later in this manual.

   a. Changes of post are made by the most direct route, unless specifically prescribed. The movement is made as soon as possible after the command of execution. Persons who have duties in connection with the movement take their new posts after those duties have been performed. Individuals moving from one post to another or aligning units must maintain military bearing. All necessary facings and changes of direction must be made as if drilling.

   b. After the initial formation, guidon bearers and special units maintain their positions with respect to the flank or end of the organization with which they were originally posted.

   c. Refer to paragraph 1004.6e of this manual for proper positions.

7. Whenever drill movements are executed while cadets are marching, the command of execution is given as the left foot strikes the deck if the movement is to the left, and as the right foot strikes the deck if the movement is to the right. The one exception is when executing left shoulder arms from port arms; the command of execution will be given on the right foot. See table 1-1 for the suggested foot to give commands on while marching.

8. The cadence of commands should be that of quick time, even though no marching is involved. The pause between preparatory commands and commands of execution should be adapted to the size and formation of the unit.

   a. The best pause to allow for a squad or platoon while marching is one count or step between the two commands. See table 1-1 for the suggested foot to give commands on while marching.

      (1) To develop the proper cadence for commands at a halt, count ONE, TWO, THREE, FOUR in quick time. Then give commands, such as “Right, FACE,” without interrupting the cadence:

      | ONE  | TWO  | THREE | FOUR |
      |------|------|-------|------|
      | “Right,” | (Pause) | “FACE” |

      (2) Marching commands, such as “By the Right Flank, MARCH,” must be started so the preparatory command will end as the foot in the desired direction of movement strikes the deck. There is then a full count before the command of execution, which is given on the same foot. See table 1-1 for the suggested foot to give commands on while marching.

   b. For a company or larger unit, the intervals must be longer. This is necessary for leaders of component units to repeat preparatory commands, give warning, or supplementary commands. The following example shows the proper cadence for the command “Right, FACE” to a company:

      | ONE        | TWO        | THREE      | FOUR      |
      |------------|------------|------------|-----------|
      | (Company)  | (Platoon)  | (Company)  | (Company) |
      | Commander  | Commander  | Commander  | Commander |
      | “Right,”   | (“Right”)  | “FACE”     |           |
1007. DRILL BY THE NUMBERS

1. Drill movements may be divided into individual motions for instruction. When drill is executed by the numbers, the first motion is made on the command of execution. Subsequent motions are made in proper order on the commands TWO, THREE, FOUR, the number of counts depending upon the number of motions in the movement. To use this method, the command "BY THE NUMBERS" precedes the preparatory command. All movements are then executed by the numbers until the command "WITHOUT NUMBERS" is given.

Table 1-1.--Suggested Foot to Give Marching Commands On.
MASS COMMANDS AND INDIVIDUAL COMMANDS FROM RANKS

1. Mass Commands. The use of mass commands in drill develops confidence and team spirit. It also teaches cadets to give and execute commands properly.

   a. The initial command is "At Your Command." The leader then gives a preparatory command that describes the movement, for example, "At Your Command, Face the Platoon to the Right, COMMAND." After this, all members of the platoon command, "Right, FACE" together and execute it. Another mass command example is "At Your Command, Call the Platoon to Attention, COMMAND." The cadets command, "Platoon, ATTENTION."

   b. Marching movements may be conducted in a similar manner as follows: "ALL MOVEMENTS UNTIL FURTHER NOTICE WILL BE AT YOUR COMMAND."

      (1) LEADER: "Call the Platoon to Attention, COMMAND." TROOPS: "Platoon, ATTENTION."

      (2) LEADER: "Forward, COMMAND." TROOPS: "Forward, MARCH."

      (3) LEADER: "By the Right Flank, COMMAND." TROOPS: "By the Right Flank, MARCH."

   c. Only simple movements with short preparatory commands are used for mass commands. Preparatory commands that require supplemental commands by subordinate leaders are not used.

   d. In order to return to normal drill methods, the instructor orders "At My Command."

2. Individual Commands From Ranks. As an aid in training cadets to give commands properly, cadets in ranks may be designated to give individual commands. This should be done only after a unit has learned to execute commands and give mass commands. The leader designates the cadet who is to give the command by name or place in ranks. He may be designated while the unit is marching or halted. The leader describes the movement to be made, as in mass commands, but does not add "COMMAND." The designated cadet remains in position and gives the appropriate command, executing the command with the unit.

3. Counting Cadence. Counting cadence by cadets in ranks teaches them group coordination and rhythm. The command is "Count Cadence, COUNT," or "Delayed Cadence, COUNT." The command of execution being given as the left foot strikes the deck. Everyone then counts cadence for 8 steps, starting when the left foot next strikes the deck. They should be required to do so in a firm, vigorous manner.

1009. ADVANCED DRILL PROCEDURES

1. **Cadence Drill (Speed Drill).** Cadence drill is an advanced form of drill. It is used only with cadets who have learned basic drill as prescribed in this manual. It provides variety for well-trained cadets and “liven[s] up” a drill period. In cadence drill, the commander, abbreviates preparatory commands and deletes the pause between the preparatory command and the command of execution. Each time a commander uses this form of drill, he must explain that the unit is departing from prescribed drill. Cadence drill is suitable for platoon and smaller units. Examples of cadence drill are:

<table>
<thead>
<tr>
<th>Step Command(s)</th>
<th>LEFT</th>
<th>RIGHT</th>
<th>LEFT</th>
<th>RIGHT</th>
</tr>
</thead>
<tbody>
<tr>
<td>&quot;Right Flank MARCH&quot;</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>&quot;Left Flank MARCH&quot;</td>
<td></td>
<td></td>
<td>&quot;Rear MARCH&quot;</td>
<td></td>
</tr>
</tbody>
</table>

2. **Trick Drill.** As with cadence drill, this form of drill is used only with cadets who have thoroughly learned all prescribed drill and cadence drill. Additionally, it may be used as a motivating device for well-trained cadets. It is extremely complex and requires extensive training and rehearsals. Trick drills are not described in this manual. They are limited only by the imagination of the leader.

1010. TABLE OF SYMBOLS USED IN THIS MANUAL

1. Table 1-2 shows the symbols used in this manual.

```
Reviewing Officer
△ Battalion Commander
○ Commander of Troops (COT)
△ Adjutant
△ Company Commander
△ Company XO
△ Platoon Commander

MPO
Platoon Guide
Squad Leader
Cadet

Table 1-2.--Drill Symbols
```
CHAPTER 2

POSITIONS

2000. ATTENTION. The position of attention is the basic military position from which most other drill movements are executed (see figure 2-1). There are no counts, however, there are several steps in describing the position:

1. Smartly bring your left heel against the right. Turn your feet out equally to form an angle of 45 degrees. Keep your heels on the same line and touching.

2. Your legs should be straight, but not stiff at the knees. Do not "lock" your knees. Keep your hips and shoulders level and your chest lifted.

3. Your arms should be straight; thumbs along your trouser seams, palms facing inward toward your legs, and fingers joined in their natural curl.

5. Stand still and do not talk.

6. The movement may be executed when halted, at any position of rest, or while marching at route step or at ease. The commands are "FALL IN" and "ATTENTION." On the command "FALL IN," you would assume your position in ranks at the position of attention. The command "ATTENTION" is always preceded by a preparatory command designated by the size of the unit, such as "Squad, Platoon," or "Company." For example, when drilling a squad the command to bring them to attention would be "Squad, ATTENTION." Thereafter, they move only as ordered until given "AT EASE," "REST," "FALL OUT," or they are dismissed.

   a. When given at parade rest, come to attention. When given at ease or rest, assume the position of parade rest on the preparatory command "Squad." When "ATTENTION" is given go to that position.

7. When at a position of rest or while marching at route step or at ease and the command "ATTENTION" is given, the following applies:

   a. When given while marching at route step or at ease, get in step as soon as possible and continue to march at attention.

2001. REST. There are four positions of rest for halted cadets. They are parade rest, at ease, rest, and fall out. The purpose of rest is to give troops a rest from the position of attention. Parade rest, at ease, and rest, are one-count movements. Fall out is not a precision movement and has no counts. All
are executed from the position of attention. The commands are “Parade, REST;” “AT EASE;” “REST;” and “FALL OUT.”

1. **Parade Rest.** On the preparatory command “Parade,” shift the weight of your body to the right leg without noticeable movement. On the command of execution “REST,” and for the count of one, move the left foot twelve inches (measured from the inside of each heel) smartly to the left. The heels remain on line and the body weight rests equally on both legs. At the same time the left foot is moved, clasp the hands behind the back. The left hand is placed at the small of the back and the right hand is placed inside the left. The thumb of the right hand lightly grasps the thumb of the left. All fingers are extended and joined with the palms to the rear. The elbows will be in line with the body. Silence and immobility are required (See figure 2-2.). The only command you may receive while at parade rest is “ATTENTION.”

2. **At Ease.** The command is “AT EASE.” It is executed in one count. At the command, keep your right foot in place. You may move about, but must not talk. You may also be given this command when not in ranks. In this case, it means cease talking, but continue whatever you were doing before the command. When in ranks, the only command you may receive while at ease is “ATTENTION.”

3. **Rest.** The command is “REST.” It is executed in one count. At the command, you may move and talk; however, you must keep your right foot in place. The only command you may receive while at rest is “ATTENTION.”

4. **Fall Out.** The command is “FALL OUT.” At the command, leave your position in ranks, but remain nearby or proceed to a pre-designated area. When “FALL IN” is given, return to your place in ranks at the position of attention.

![Figure 2-2.—Parade Rest.](image-url)
2002. **EYES RIGHT (LEFT).** The purpose of eyes right (left) is to demonstrate military courtesy to reviewing officers and dignitaries during parades and ceremonies. It is executed in one count when halted at attention or marching at quick time in platoon formation. The command is “Eyes, RIGHT (LEFT).” The command to turn the head back to the position of attention is “Ready, FRONT.”

1. At the halt, when the command of execution “RIGHT (LEFT)” is given, turn your head smartly 45 degrees to the right (left keeping your shoulders square to the front. Do not turn your eyes to the right. Eyes remain as in the position of attention.

2. At the halt, on the command of execution “FRONT” turn your head smartly back to the front. During reviews at which the reviewing officer troops the line, ready front will not be given after eyes right. At such ceremonies, turn your head smartly toward the reviewing officer on the command of execution “RIGHT.” As he/she passes to the left, follow the reviewing officer with your head until you are looking directly to the original front.

3. When marching, give the command, “Eyes, RIGHT” so that the command of execution is given as the right foot strikes the deck and the command “Eyes, LEFT” so that the command of execution is given as the left foot strikes the deck. When marching with two (2) or more squads, the base squad does not turn their heads. Give the command “Ready, FRONT” from eyes right so that the command of execution is given as the left foot strikes the deck and “Ready, FRONT” from eyes left so that the command of execution is given as the right foot strikes the deck. For example:

<table>
<thead>
<tr>
<th>LEFT</th>
<th>RIGHT</th>
<th>LEFT</th>
<th>RIGHT</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Ready”</td>
<td>“Eyes, (Step)”</td>
<td>“Ready”</td>
<td>“Eyes, (Step)”</td>
</tr>
<tr>
<td></td>
<td>“RIGHT”</td>
<td></td>
<td>“RIGHT”</td>
</tr>
<tr>
<td></td>
<td>(From “Eyes, RIGHT”)</td>
<td></td>
<td>(From “Eyes, LEFT”)</td>
</tr>
</tbody>
</table>

2003. **FACING MOVEMENTS.** The purpose of facing movements is to face a unit to the right, left or about. Facing movements are executed in two counts when halted at attention. The commands are “Right, FACE;” “Left, FACE;” and “About, FACE.” Facing movements are executed in the cadence of quick time. While facing, your arms should not swing out from your sides, but should remain at the position of attention.

1. “Right, FACE” is a two-count movement (See figure 2-3.).

   a. On count one, at the command “FACE,” raise your left heel and right toe slightly. Turn to the right on your right heel and left toe. Keep your left leg straight but not stiff (see figure. 2-3b).

   b. On count two, place the left foot smartly beside the right and stand at attention (see figure 2-3c).

2. “Left, FACE” is executed in the same manner described in 2003.1 above, substituting the words “left” for “right” and “right” for “left.”
3. "About, FACE" is a two-count movement (See figure 2-4.).

   a. At the command "About," shift your weight to your left leg without noticeable movement (See figure 2-4a.).

   b. On count one at the command "FACE," place your right toe half your foot’s length behind and slightly to the left of your heel. Do not change the position of your left foot. Rest your weight evenly on the left heel and the ball of the right foot (see figure 2-4b).

   c. On count two, turn smartly to the right until facing rear. The turn is made on the left heel and ball of the right foot. The knees remain straight, but not locked during the movement (see figure 2-4c).

2004. HAND SALUTES

1. The purpose of the hand salute is to demonstrate mutual respect and courtesy between members of military organizations and to show respect to national colors. It is executed in one count when halted at attention, marching at quick time, or seated in a vehicle. The command is "Hand, SALUTE." To return to the position of attention the command is "Ready, TWO." (See figure 2-5).

   a. When the command "SALUTE" is given, raise your right hand smartly in the most direct manner until the tip of your forefinger touches the lower part of the headdress above and slightly right of your right eye. Your fingers should be extended and joined with the thumb along the forefinger. You should be able to see your entire palm when looking straight ahead. Your upper arm should be parallel with the deck with the elbow in line with the body and your forearm at a
45-degree angle. Your wrist, hand and forearm should be straight, a continuation of the line made by your arm. At the same time, if not in ranks, turn your head and eyes toward the person or colors you are saluting.

b. At the command “TWO,” return to attention. Move your hand smartly in the most direct manner back to its normal position by your side.

c. To ensure simultaneous execution of the second movement of the hand salute when troops are in formation, the preparatory command “Ready,” will be used prior to the command of execution “TWO.”

2. You may salute without command from attention, while walking, or while seated in a vehicle. When walking, it is not necessary to halt to salute. Keep walking, but at attention. The salute is rendered when the person or colors to be saluted is at a 6-pace distance, or at the nearest point of approach if it is apparent that the person or color is not going to approach within 6 paces. The salute will not be rendered if the person (color) to be saluted does not approach within 30 paces. Hold the first position of the salute until the person (color) saluted has passed or the salute is returned, then execute the second movement of the hand salute (See figures 2-6 and 2-7 for examples of when to/not to salute).

3. When the command “Present, ARMS” is given, if not armed, you execute the hand salute on the command “ARMS.” Stay at that position until the command “Order, ARMS” is given.

Figure 2-5.—Examples of Hand Salute.
1. Salute officers only when COVERED and IN UNIFORM as shown below.
Figure 2-7.—When not to Salute.

1. Examples of when NOT to salute officers are shown below.
2005. UNCOVER. This is a non-precision movement, although explained in detail to clarify the actions of this movement. The Guidon bearer remains covered during this movement. The command is, "UNCOVER, TWO." When "UNCOVER" is given:

1. **Combination Cover.** Place your right hand on the visor of your cover, with your fingers together on top and thumb underneath the visor. On the command of execution, "TWO," remove the cover smartly and stow it under your upper left armpit, with the visor in front and the top of the cover touching your arm, cutting your right hand away smartly to your side (returning to the position of attention).

2. **Garrison Cover.** Place your right hand on the top center of your garrison cap, with your fingers together on the port side and your thumb on the starboard side. On the command of execution, "TWO," remove the cover, cutting your right hand away smartly to your side, returning to the position of attention. The cover will be in the right hand with its open end facing up. The fore end of the cover now points toward your rear, and the aft end points to your front.

2006. COVER

1. **Combination Cover.** The command is, "COVER, TWO. When "COVER" is given, place your right hand on the visor of the cover (under your left arm), grasping it with the fingers on top and the thumb underneath, and place it on your head, guiding it with your left hand, which is placed on the rear the expandable frame, grasping the frame with fingers together and thumb. Once the cover has been repositioned on the head, return the left hand to your side, while keeping the right hand on the visor. On the command of execution, "TWO," the right hand is cut away smartly to your side, resuming the position of attention.

2. **Garrison Cover.** The command is, "COVER, TWO. When "COVER" is given, raise both hands to your head, and place the cover back on your head, using both hands to straighten the cover. Once the cover has been repositioned on the head, return the left hand to your side, while keeping the right hand on the cover’s starboard side. On the command of execution, "TWO," the right hand is cut away smartly to your side, resuming the position of attention.
SECTION 2: STEPS AND MARCHING

2200. GENERAL

1. With the exception of right step, all steps and marching movements beginning from a halt start with the left foot.

2. The Commander of Troops (COT) indicates the proper rhythm by counting cadence.

3. To change direction on the march, the command of execution is given as the foot in the desired direction of the turn strikes the deck.

2201. QUICK TIME. The purpose of quick time is to march at 112 to 120 steps per minute, normally taking 30-inch steps. It may be executed when halted at attention, marking time, marching forward at double time, or marching at half step. The commands are “Forward, MARCH” or “Quick Time, MARCH.”

1. When halted, the command to march forward at quick time is “Forward, MARCH.”

2. On “Forward,” shift your weight to the right leg without noticeable movement.

3. On “MARCH,” step off smartly, left foot first, and march straight ahead with 30-inch steps. Swing your arms easily in their natural arcs, 6 inches straight to the front and 3 inches to the rear. Do not exaggerate movements.

2202. DOUBLE TIME. The purpose of double time is to march at 180 steps per minute taking 36-inch steps. It may be executed when halted at attention, marking time, double timing in place, or marching forward at quick time. The command is “Double Time, MARCH.” When given while marching, the command “MARCH” may be given as either foot strikes the deck.

1. When Halted
   a. At the command “Double Time,” shift your weight to your right leg without noticeable movement.
   b. On “MARCH,” step off on the left foot and begin an easy run, taking 180, 36-inch steps per minute. At the same time raise your forearms until parallel with the deck and make fists of your hands.

2. When Marching at Quick Time
   a. When the command “MARCH” is given, take one more 30-inch step.
   b. Step off in double time.

3. To Resume Quick Time, the Command is “Quick Time, MARCH”
   a. On “MARCH,” take one more 36-inch step.
   b. Lower your arms and slow to quick time.

4. When Marching in Place
   a. Take one more step in mark time (or double time in place).
   b. Step off forward in double time.
2203. HALT. The purpose of halt is to stop the movement of a marching unit. It is executed in two counts when marching at quick time, and three counts when marching at double time. It may be executed when marching at quick time, half step, double time, side step, back step, mark time, and double time in place. The command of execution is "HALT," which is always preceded by a preparatory command designated by the size of the unit, such as "Squad, Platoon," or "Company." The command of execution may be given as either foot strikes the deck except for sidestep.

1. While Marching at Quick Time or Half Step
   a. Take one more step after "HALT."
   b. Bring the rear heel forward against the other.

2. While Marching at Double Time
   a. Take one more double time step after "HALT."
   b. Take another at quick time.
   c. Bring the rear heel forward against the other.

3. While Marching at Right (Left) Step
   a. The command "HALT" is given when the heels are together.
   b. Take one more side step after "HALT."
   c. Bring the heels together.

4. While Backward Marching
   a. Take one more back step after "HALT."
   b. Bring the forward heel back against the other.

5. While Marching at Mark Time
   a. Take one more step in place after the command "HALT."
   b. Bring the heels together.

6. While Marching at in Place Double Time
   a. Take one more in place double time step after the command "HALT."
   b. Take another step in place at quick time.
   c. Bring the heels together.

2204. MARK TIME. The purpose of mark time is to march in place at quick time cadence. It may be executed when halted at attention, double-timing in place, marching at half step and marching forward at quick time. While marching, the command may be given as either foot strikes the deck. The command is "Mark Time, MARCH."

1. When Halted
a. On the command “Mark Time,” shift your weight to your right leg slightly without noticeable movement.

b. On the command “MARCH,” beginning with your left foot, then alternating, raise each foot so that the ball of the foot is approximately 2 inches and the heel approximately 4 inches from the deck at a cadence of quick time. At the same time, swing your arms naturally as in marching.

2. When Marching at Quick Time

   a. On the command “MARCH,” take one more 30-inch step as if coming to a halt.

   b. Bring your heels together. Begin marking time without loss of cadence with the opposite foot.

3. To Resume the March at Quick Time, The Command is “Forward, MARCH”

   a. On the command “MARCH,” take one more step in place.

   b. Step off with a 30-inch step.

4. When Marching at Double Time in Place

   a. On the command “MARCH,” take one more step in place at double time.

   b. Commence marking time.

2205. DOUBLE TIME IN PLACE. The purpose of double time in place is to march in place at double time cadence. It may be executed when halted at attention, marking time, or marching forward at double time. The command is “In Place Double Time, MARCH.”

1. When Halted

   a. On the command “In Place Double Time,” shift your weight to your right leg without noticeable movement.

   b. On the command “MARCH,” raise your arms for double time. Starting with the left foot, alternating and in place, raise your feet 6 inches above the deck at 180 steps per minute.

2. When Marching at Double Time

   a. After “MARCH,” take two more double time steps.

   b. Bring your feet together and begin double timing in place without loss of cadence.

3. The Command “Double Time, MARCH” Resumes the March at Double Time

   a. At “MARCH,” take two more steps in place.

   b. Step off with 180, 36-inch steps per minute.

4. When Marking Time

   a. On the command “MARCH,” take one more step in mark time.

   b. Commence marching at double time in place.
2206. **HALF STEP.** The purpose of half step is to march forward at quick time taking 15-inch steps. It may be executed when halted at attention or marching forward at quick time. While marching it may be given as either foot strikes the deck. The command is "**Half Step, MARCH.**"

1. **At the Halt**
   
   a. On the command "**Half Step,**" shift your weight to your right leg without noticeable movement.
   
   b. On the command "**MARCH,**" step off forward in quick time cadence with 15-inch steps. The balls of your feet should strike the deck before your heels. At the same time begin swinging your arms 6 inches to the front and 3 inches to the rear.

2. **Marching in Quick Time**
   
   a. On the command "**MARCH,**" take one more 30-inch step.
   
   b. Begin the 15-inch steps as explained above. (See paragraph 2206.1.)

3. To resume quick time from half step, the command is "**Forward, MARCH.**" It may be given as either foot strikes the deck.
   
   a. On "**MARCH,**" take one more half step.
   
   b. Step off at quick time.

2207. **SIDE STEP.** The purpose of side step is to move the unit a short distance to the right or left. There are no counts, however there is a cadence of 1-2 at quick time.

1. The command "**Right (Left) Step, MARCH**" is given only when you are at a halt.

2. At the command "**MARCH,**" move your right (left) foot 12 inches to the right (left), then place your left (right) foot smartly beside your right (left). Repeat this movement at quick time. Keep your legs straight, but not stiff. Hold your arms at your sides as in the position of attention.

2208. **BACK STEP.** The purpose of back step is to march the unit backwards for a short distance.

1. The command "**Backward, MARCH**" is given only when you are at a halt.

2. At the command "**MARCH,**" step off to the rear with your left foot and take 15-inch steps at quick time. At the same time swing your arms 6 inches to the front and 3 inches to the rear, coordinating your arm and leg movements naturally.

2209. **TO FACE TO THE RIGHT (LEFT) IN MARCHING**

1. This is an important part of the following movements: column right (left), by the right (left) flank, close, take interval, and extend. For instructional purposes, the command is "**By The Right (Left) Flank, MARCH.**"

2. From a Halt, on the Command "**MARCH**"
   
   a. For right flank, turn 90 degrees to the right by pivoting on the ball of the right foot and (using a cross over step) stepping off with the left foot 30 inches in the new direction of march.
b. For left flank, turn 90 degrees to the left by pivoting on the ball of the right foot and stepping off 30 inches with the left foot in the new direction of march.

3. While marching, the command of execution is given as the foot of the desired direction of movement strikes the deck.

   a. On "MARCH," without losing cadence, take one more step in the original direction.

   b. Pivot to the right (left) and step off in the new direction. If commanded and executed properly, the pivot will be on the foot away from the desired direction of movement, and the first step in the new direction will be with the other foot. The pivot and step are done together in one count. When marching to the flank the only other movement that can be given is a flanking movement in the opposite direction that will bring the individual or unit back to the original front.

2210. TO FACE TO THE REAR WHILE MARCHING. The purpose of this movement is to march the unit to the rear for a short distance.

1. The command is "To the Rear, MARCH." It may be executed when halted or while marching at either quick time or double time. When marching the command of execution "MARCH" is given when the right foot strikes the deck. When marching to the rear, the only movement that can be given is "To the Rear, MARCH" in order to bring the individual or unit back to its original front.

2. To March to the Rear From a Halt

   a. The command is "To the Rear, MARCH."

   b. On "MARCH," step forward with the left foot.

   c. Turn about to the right on the balls of both feet and immediately step out to the rear with the left foot. This is done without loss of cadence. When turning, the feet should be about 15 inches apart.

3. When at Quick Time

   b. Turn about to the right on the balls of both feet and immediately step off to the rear with your left foot. This is done without loss of cadence. When turning, the feet should be about 15 inches apart.

4. When at Double Time

   a. On "MARCH," follow the sequence of steps and actions below.

   **As this foot strikes the deck**
   
   **Take the following action**
   
   RIGHT
   "MARCH" is given.
   36-inch step.
   RIGHT
   36-inch step. Then in place double time.
   LEFT
   Pivot 90 degrees to the right
   RIGHT
   Heels together.
   LEFT
   Pivot 90 degrees to the right.
   RIGHT
   Heels together.
   LEFT
   36-inch step in the new direction.
2211. TO MARCH TO THE FLANK. The purpose of this movement is to march the entire unit to the right (left) for a short distance. It may be executed when halted (for instructional purposes only) or while marching at either quick time or double time. The command is “By the Right (Left) Flank, MARCH.” When marching the command of execution is given as the foot in the direction of the movement strikes the deck.

1. From a Halt (For Instructional Purposes Only)
   a. For right flank, turn 90 degrees to the right by pivoting on the ball of the right foot and (using a cross over step) stepping off with the left foot 30 inches in the new direction of march.
   b. For left flank, turn 90 degrees to the left by pivoting on the ball of the right foot and stepping off 30 inches with the left foot in the new direction of march.

2. While at Quick Time
   a. On “MARCH,” take one more step.
   b. Turn to the right (left) on the ball of the left (right) foot. At the same time, step off 30 inches in the new direction with the right (left) foot.

3. While Double Timing
   a. On “MARCH,” use the following sequence and actions.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>By the Left Flank</th>
<th>By the Right Flank</th>
</tr>
</thead>
<tbody>
<tr>
<td>LEFT</td>
<td>“MARCH” is given.</td>

<td>RIGHT</td>
<td>36-inch step in new direction.</td>
</tr>
</tbody>
</table>

2212. TO CHANGE STEP. The purpose of this movement is to change the cadence count without changing the rhythm of the cadence.

1. The command is “Change Step, MARCH.” It may be given while marching at quick or double time, marking time, or double timing in place. The command of execution is given as the right foot strikes the deck.

2. While Marching at Quick Time or Double Time
   a. On “MARCH,” take one more step, 30 or 36 inches, as appropriate.
   b. In one count, as your right foot comes forward to the next step, place the toe near the left heel and step out again with the left foot. This changes the cadence count, but not the rhythm.

3. While Marking Time
   a. On “MARCH,” lift and lower the left foot twice in succession.
   b. The second time it touches the deck, raise the right foot and continue marking time.

4. While Double Timing in Place
a. On “MARCH,” hop twice on the left foot.

b. Continue double timing in place.

2213. TO MARCH AT EASE. The purpose of this movement is to give troops a rest from marching at attention or when keeping in step becomes difficult due to rough terrain.

1. The command is “At Ease, MARCH.” It is given as either foot strikes the deck and only while marching at quick time.

2. After “MARCH,” you are no longer required to march in cadence, but must keep interval and distance. Do not talk.

2214. TO MARCH AT ROUTE STEP

1. The command is “Route Step, MARCH.” It is commanded as either foot strikes the deck and only while marching at quick time.

2. After “MARCH,” you are no longer required to march in cadence, but must keep interval and distance. You may talk, but in a low voice.

2215. TO RESUME MARCHING AT QUICK TIME FROM ROUTE STEP OR AT EASE

1. The command is “Squad (Platoon, Company, Detail, etc.), ATTENTION.”

2. After commanding “ATTENTION,” the unit leader will count cadence until all troops are in step. Pick up the step as soon as possible and continue marching at attention.

3. Commands that involve precision in execution will not be given until the command to resume marching at quick time has been given and all members of the formation have picked up the step and cadence.
3001. **GENERAL**

1. This Chapter is designed to provide standardized detailed instructions for the manual of arms, **which will be used for all NJROTC drill rifles.**

2. The balance is the center of your rifle (See figure 3-1.). In performing the manual of arms it is often necessary to hold the rifle in your left hand for balance (See figure 3-2.). In so doing, the rifle is held between the thumb and fingers. Include the sling in your grip. Keep your fingers straight and together. Your thumb and fingers form a "U."

3. The position of the rifle known as “diagonally across the body” is as follows:
   
   a. The left hand is at the balance, with the thumb and fingers grasping the rifle and sling. To do this, extend and join the fingers so as to form a “U” with the thumb.
   
   b. The barrel points up and is at such an angle that it bisects the juncture of the neck and shoulder. The heel of the butt is on line with the right hip (figure 3-2).
   
   c. The rifle is held at a height that allows the right forearm to be parallel to the deck when the small of the stock is grasped with the right hand.
   
   d. The distance of the rifle from the body depends upon your body’s natural position, but it should be about 4 inches from your belt.

4. The cadence for rifle movement is 112 to 120 counts per minute.

5. While marching at double time, the rifle will be held across your body.

6. The manual of arms for the rifle is taught while halted. However, to add interest to drill or lessen fatigue, right (left) shoulder arms and port arms may be commanded when marching at quick time. Refer to table 1-1 of this manual to determine which foot strikes the deck for each movement on the march.
Figure 3-1a.--M1 Rifle Nomenclature.

Figure 3-1b.--M1903 Springfield Rifle Nomenclature.
3002. **ORDER ARMS**

1. When halted, come to order arms when any of the following commands are given: "**ATTENTION; FALL IN; or Order, ARMS.**" (See figure 3-3).

2. At the command of execution, place the butt on the deck along the outer edge of the right shoe. The toe of the butt is on line with the toe of the shoe. The rifle’s upper hand guard rests in a “V” formed by your thumb and forefinger. All fingers are straight and joined. Your right hand and arm are behind the rifle. This may cause a slight bend in your elbow. The tips of your thumb and forefinger are kept on line with the front edge of the hand guard. Your right thumb should also be along the trouser seam. Except for your right hand, the entire body is at attention.
3003. **TRAIL ARMS**

1. Trail arms is used for short-distance movements. If an order for a facing or a marching movement is given while at order arms, automatically assume the position of trail arms on the command of execution. Upon completion of the movement, return to order arms (see figure 3-4).

2. The command is "Trail, ARMS." It is given only from order arms. The movement is executed in one count. On the command of execution ARMS, the rifle is raised vertically 3-inches off the deck. The wrist is kept straight with the thumb along the seam of the trousers.

3. On the command "Order, ARMS," lower the rifle butt to the ground and resume the position of order arms.

![Figure 3-4.—Trail Arms.](image)

3004. **REST POSITIONS**

1. Rest positions are commanded and executed the same as without arms, with the following exceptions and additions:

2. On the command PARADE, REST, move your left foot 12 inches to the left. The rifle butt is kept against your right foot. The grasp of your right hand is moved up to the upper hand guard just below the stacking swivel. The rifle rests in the "V" of the hand with the fingers joined and curled about the guard, the thumb and forefinger touching. The barrel of the rifle is pushed forward until the right arm is straight and the muzzle points forward and up. At the same time your left foot is moved, place the back of your left hand in the small of your back with fingers and thumb together and palm facing to the rear. Parade rest will also be assumed on the preparatory command to "ATTENTION," if not already at parade rest (see figure 3-5).

3. On the command AT EASE, your right foot remains in place and the rifle is held as in parade rest with your right arm slightly relaxed. You may not talk.
4. On the command **REST**, your right foot remains in place and the rifle is held as in parade rest with your right arm slightly relaxed. You may talk softly.

Figure 3-5.--Parade Rest.

3005. **PORT ARMS**

1. The purpose of this movement is to bring the rifle to a two-handed carry position. This is a two-count movement from order arms. It is executed when halted at order arms. The command is "Port, ARMS."

2. On the command "**ARMS,**" and for the count of one, grasp the rifle with your right hand and raise it diagonally across your chest until your right hand is in front of and slightly left of your face. The barrel is positioned so that it bisects the angle where the neck and the left shoulder join. The elbow is held down without strain and nearly touches the hand guard. Your right forearm is at an angle of approximately 45 degrees to the ground. On the same count, grasp the rifle at the balance with your left hand.

3. On the second count, move your right hand from the upper hand guard to the small of the stock. Both elbows should be against your sides with your right wrist and forearm straight and parallel to the ground, upper arm in line with your body. Your rifle should be 4 inches in front of your body. Fingers are joined and wrapped around the rifle, with the thumb wrapped around the opposite side. In the position of port arms, the rifle is held across the body with the butt in front of the right hip (see figure 3-6).
3006. **Present Arms**

1. Present arms is another way of saluting when under arms. The movement can be executed from order arms and port arms. The command is "**Present, ARMS**."

2. To present arms from order arms, is a two-count movement. On the command "**ARMS:**"

   a. On the first count, raise the rifle to a position 4 inches in front of the center of your body, sling away from you, barrel straight up. At the same time, grasp the balance with your left hand, thumb on the lower hand guard, left wrist and forearm straight and parallel to the deck. Your fingers are joined, and the sling is included in your grip.

   b. On the second count, grasp the small of the stock with your right hand, your fingers extended and joined, pointing straight down the stock, thumb resting in the small of the stock. The right arm is fully extended and straight. Elbows are held against your sides.

3. **From port arms.** This is a one-count movement. Simply turn your rifle in your hands while at the same time lowering it to the present arms position.
3007. ORDER ARMS FROM PRESENT AND PORT ARMS

1. The command is "Order, ARMS." It is a three-count movement from either position and will be executed the same way from each (see figure 3-8 a and b).

2. At the command of execution, and for the count of one, move your right hand smartly from the small of the stock to the upper hand guard. The elbow is held without strain and nearly touches the hand guard.

3. On the second count, release the balance with your left hand and lower the rifle to a point where the butt is 3 inches from the deck, slightly to the right of your right toe, and the muzzle pointing straight up. This is done while changing the grasp with the right hand to the "V" position of trail arms. While lowering the rifle move your left hand, thumb and fingers are extended and joined, to a point near the stacking swivel. This is merely to steady the rifle and position the toe of the rifle where it will need to be when lowered. Keep your palm facing to the rear so it will not resemble a rifle salute. The left wrist and forearm are straight.

4. On the third count, return your left hand smartly back to your left side and lower the butt gently to the deck. You are now at the position of order arms.
3008. **PORT ARMS FROM LEFT SHOULDER ARMS**

1. This is a two-count movement. The command is **"Port, Arms."**

2. At the command of execution and for the first count, grasp the small of the stock with your right hand. The right arm is held down without strain.

3. For the second count, release the butt with your left hand. At the same time, bring the rifle across your body and grasp the balance with your left hand as in port arms (See figure 3-9).
3009. ORDER ARMS FROM LEFT SHOULDER ARMS

1. This is a five-count movement executed only while halted at the position of attention. The command is “Order, ARMS.”

2. On the first and second count, come to port arms as described in steps one and two of paragraphs 3008.2 and 3.

3. On counts three, four and five, come to order arms as described in order arms from port arms steps, two, three and four, paragraphs 3007.2 through 3007.4.

3010. LEFT SHOULDER ARMS FROM PORT ARMS

1. This is a two-count movement. The command is “Left Shoulder, ARMS.”

2. Come to left shoulder arms as described in steps three and four of left shoulder arms from order arms, paragraph 3017.3 and 3017.4.

3011. INSPECTION ARMS

1. This is a four-count movement. The command is “Inspection, ARMS.”

2. On counts one and two, come to port arms.

3. On count three, drop your head and look at the cartridge chamber of the rifle.

4. On count four, raise your head smartly to the position of attention (see figure 3-10).
3012. ATTENTION FROM REST POSITIONS

1. The command is "Squad (Platoon, or Company), ATTENTION."
   a. On "Squad (Platoon or Company)," come to parade rest.
   b. On "ATTENTION," come to order arms in one count.
   c. From Fall Out. The command is "FALL IN." On the command "FALL IN," go back to your place in ranks and come to attention at order arms.

3013. RIGHT SHOULDER ARMS FROM ORDER ARMS

1. The command is "Right Shoulder, ARMS." It is a four-count movement.

2. At the command of execution and for the count of one, lift the rifle across your body. At the same time, take the balance in your left hand.

3. On the second count, release the upper hand guard with your right hand. Grasp the heel of the butt. The thumb and index finger touch on top of the stock. Your remaining fingers are joined and wrap around the rifle butt.

4. On the third count, place the rifle in your right shoulder without changing your grip on the butt. The sights are up; the rifle is tilted at an angle of 45 degrees to the deck, and held so it points directly fore and aft. Your right elbow is against your side and your right forearm level with the deck. While placing the rifle on your shoulder, allow your left hand to slide to the small of the stock. Your left hand guides the rifle to your shoulder. Keep your palm facing to the rear, so it does not resemble a rifle salute.

5. On the fourth count, move your left hand smartly back to your side (see figure 3-11).
3014. **PORT ARMS FROM RIGHT SHOULDERS ARMS**

1. This is a two-count movement. The command is "Port, ARMS."

2. At the command of execution and for the first count, smartly snatch down on the butt of the rifle with your right hand so that the rifle will spring from your shoulder. At the same time as it leaves your shoulder, smartly twist the butt clockwise one-quarter turn with your wrist so the rifle will fall diagonally in front of your chest, barrel up. Keep your head still. Keep your grip on the butt. Raise your left hand smartly to catch the rifle at the balance four inches in front of your chest, right arm nearly extended with your elbow close to your body.

3. On the second count, move your right hand to the small of the stock and assume the position of port arms.
3015. ORDER ARMS FROM RIGHT SHOULDER ARMS

1. This movement is executed in four counts. The command is “Order, ARMS.”

2. On “ARMS”: first count, remove the rifle from your shoulder in the same manner as described in paragraph 3014.2.

3. On the second count, smartly grasp the upper hand guard with your right hand, elbow held without strain and nearly touching the hand guard.

4. On counts three and four, come to order arms as described in order arms from port arms steps two and three, paragraph 3007.3 and 3007.4.

3016. RIGHT SHOULDER ARMS FROM PORT ARMS

1. This is a three-count movement. The command is “Right Shoulder, ARMS.”

2. At the command of execution and for the first count, release the small of the stock and grip the heel of the butt between the thumb and index finger of your right hand. Your thumb and index finger touch. Your remaining fingers are joined and wrap around the rifle butt.

3. On the second and third counts, complete the movement as described under right shoulder arms from order arms, paragraph 3013.3 and .4 of this manual.

3017. LEFT SHOULDER ARMS FROM ORDER ARMS

1. This is a four-count movement. The command is “Left Shoulder, ARMS.”

2. On counts one and two, come to the position of port arms.

3. On the third count, release the balance with your left hand and place the rifle on your left shoulder with your right hand. Your right wrist and forearm are straight and held down without strain. At the same time grasp the heel of the butt. Your thumb and index finger touch on top of the stock. The remaining fingers are joined and wrap around the rifle butt. The rifle is at a 45-degree
angle to the deck, and the sights up. Keep the rifle pointing directly fore and aft. Your left elbow is against your side, your left forearm is straight and parallel to the deck, upper arm in line with your back.

4. Drop your right hand smartly to your side (see figure 3-13).

![Figure 3-13.--Left Shoulder Arms from Order Arms](image)

3018. **RIFLE SALUTES**

1. The purpose of this movement is to render a salute to persons or colors, when not in formation nor posted as a sentry. It is a one-count movement, executed when halted at order arms, trail arms, or when halted or marching at right or left shoulder arms. This movement may be executed from order arms, trail arms or right (left) shoulder arms. The command is “Rifle SALUTE.”

   a. **Order arms**. On the command “SALUTE,” you move the left arm smartly across your body with your forearm and wrist straight, fingers extended and joined, thumb along the hand with the palm down. The first joint of your forefinger touches the barrel just above the stacking swivel. When not in ranks, your head turns toward the person or colors you are saluting. On the command “Ready, TWO,” return your hand smartly to your side.

   b. **Trail arms**. The movements are identical as for order arms except that the butt of the rifle is held 3 inches off the ground at the trail position.

   c. **Right (left) shoulder arms**. Your left (right) arm moves across the body, fingers extended and joined with your palm down. The first joint of your forefinger touches the rear of the receiver and your forearm is held parallel to the deck. Turn your head and eyes toward the person or color you are saluting. Resume your original position upon the command “Ready, TWO.”
2. Present Arms. Present arms is another way of saluting when under arms. See paragraph 3006 of this manual.

3019. AUTHORIZED MOVEMENTS IN THE MANUAL OF ARMS WITH THE NJROTC RIFLES

1. From Order Arms To:
   a. Port Arms
   b. Right Shoulder Arms
   c. Left Shoulder Arms
   d. Present Arms
   e. Inspection Arms
   f. Trail Arms
   g. Rifle Salute
   h. Rest Positions

2. From Port Arms to:
   a. Right Shoulder Arms
b. Left Shoulder Arms
c. Order Arms
d. Present Arms

3. From Right Shoulder Arms to:
   a. Left Shoulder Arms
   b. Port Arms
   c. Order Arms
d. Inspection Arms
e. Rifle Salute

4. From Left Shoulder Arms to:
   a. Right Shoulder Arms
   b. Port Arms
c. Order Arms
d. Inspection Arms
e. Rifle Salute

5. From Trail Arms to:
   a. Rifle salute
   b. Order Arms

6. From Inspection Arms to Port Arms (only movement from inspection arms)

7. From Present Arms to Order Arms
4000. **SWORD HISTORY**

1. The sword is the symbol of authority and badge of office. It is worn by officers in the armed services of all nations. In the early days of history, the sword was a highly personal weapon of symbolic importance. It has not been a practical weapon since the days of cavalry, although some Japanese officers carried their family samurai swords in World War II. The tradition of wearing swords was temporarily suspended during World War II in the U. S. Navy, but officially returned as part of the dress uniform in 1954 for commissioned and warrant officers.

2. The etiquette of the sword, more often called the "manual of the sword" is steeped in ancient tradition. For instance, the sword salute is probably of crusader origin. The knights of the Middle Ages pledged their lives and worthy honor on the sign of the cross, which was symbolized by the cross made by the handle and blade of the sword. They would kiss the sword hilt before entering battle and when taking vows and oaths.

3. Most of the ancient history of the sword salute is retained in the present-day salute. The sword held at arm's length was originally the first salute to a superior. Allowing the point of the sword to descend to the ground is the ancient act of submission. Bringing the sword hilt to the mouth or chin is a survival of the custom of kissing the cross of the sword.

4. The sword salute on the march as well as the flourish of a drum major are survivals of the fancy moves made by officers in the military reviews of the seventeenth century.

5. The most serious breach of sword etiquette is to drop a sword when making the sword salute. Keep a firm grip on the hilt. Officers who wear swords should practice unsheathing, saluting and resheathing the sword so those movements can be done smoothly. When marching in a parade, all eyes are on those saluting when passing the reviewing stand.

4001. **ARCH OF SWORDS AND CAKE CEREMONIES**

1. The arch of swords and the cutting of a cake are commonly conducted at the annual Military Ball. A usual feature at some balls is the Grand March (sometimes called the John Paul Jones or Grand Promenade). This is led by the company commander and his date, followed by his sword-carrying staff and any sword-carrying officer guests and their dates. At one stage of the march (toward its conclusion), the officers will unsheathe their sword and make an arch under which all couples following them in the march will pass. It is a great deal of fun and is a special traditional feature of some Military Balls.

2. The arch of swords ceremony is an old English and American custom, which gives a symbolic pledge of loyalty to the newly married couple. Only the newly married couple is allowed to pass under the arch. NJROTC has practiced this custom during homecoming games, and other events as determined by the Naval Science Instructor.

3. Cadet officers usually form the sword detail, however other cadets may be designated as determined by the Naval Science Instructor. Customarily, six or eight members take part in the ceremony. The Cadet ushers form at the designated arch position, in two equal ranks, at normal interval, facing each other, with sufficient room between ranks (3 to 4 paces) for the honorees to pass. The senior Cadet usher is positioned in the left rank furthest from the arch exit point (see figure 4-1).
4. At the appropriate time, the arch honorees (usually male and female pairs) will stand outside the main arch entrance. The senior Cadet usher will then form the arch of swords by commanding, “Draw, SWORD.”

   a. On the preparatory command, “Draw,” execute the first count of the movement as described in paragraph 4003 of this manual.

   b. On the command of execution, “SWORD,” remove the sword from the scabbard in one continuous motion to an angle of 45 degrees, points touching across the aisle formed by the ushers. At this point, halt and do not complete the final counts of draw sword.

5. The arch honorees then pass under the arch. (Note: In the case of a wedding, the bride and groom, and only the bride and groom pass under the arch. As the newlyweds approach the last two ushers, they slowly lower their swords to halt the couple. The senior usher then congratulates the couple, and then announces the new couple to those assembled. The last two ushers then slowly raise their sword back to the arch position and allow the couple to pass).

6. After the arch honorees have cleared the arch the senior Cadet usher gives the command, “Return, SWORD.”

   a. On the preparatory command, “Return,” move the sword to the present position and then to the scabbard as described in paragraph 4012 of this manual.

7. Also at the ball, there is usually a cake to be cut. A particular tradition may have been developed at your own school. One ceremony commonly used is as follows:

   The company commander's date will cut the cake with the commander's sword. The first piece of cake is given to the wife of the naval science instructor (or the wife of the principal, school board president, etc.)

8. These are dignified, symbolic ceremonies, performed to especially honor the participants and to recognize the military tradition of the sword and the honorable profession of bearing arms. They are happy events carried out with good humor. All guests at the military ball should quietly stand, surrounding the cake at a respectful distance during the cake cutting ceremony. They ordinarily clap and "bravo" after the cutting and clap after the presentation of the first piece of cake to the honored lady.
9. For detailed information about cake-cutting ceremonies, refer to chapter 5, paragraph 5017 and chapter 23 of the MCDCM. Units can tailor the ball and cake-cutting ceremony guidance in the MCDCM to fit its needs.

4002. NOMENCLATURE AND GENERAL RULES OF THE SWORD

1. The sword is carried in a scabbard, which sheaths the blade. The sheath is straight and hangs by a ring on a hook, which is attached to the left side of the sword belt. It is worn as depicted in the illustration.

2. The sword grip is made of bone, ivory or special hard white plastic. Short and long slings with snap clips complete the attachment of the scabbard to the sword belt. Study the illustration of the parts of the sword and belt as shown in figure 4-2.

3. When in formation, officers draw and return swords, without command, when the commander of their unit does. Unless they are members of the commander's staff, other unit officers execute all other movements of the sword manual on the commander's command to the entire unit. After these orders are carried out, the commander gives separate commands to his staff, which he and his staff execute together.

4. The sword will be drawn by unit leaders whenever the unit or drill team is armed with drill rifles, except when at ease, rest, route step, at ease march or inspecting cadets. The unit leader, after being inspected, will return sword prior to accompanying the inspecting party.

5. The sword should always be in its scabbard when its bearer is not in formation.
6. **CARRY OF THE SWORD AND SCABBARD UNRIGGED**

   a. When not in formation and it is impractical to carry the sword and scabbard rigged at the side (slung or in a frog), the sword sheathed in its scabbard may be carried under the left arm.

   b. Place the sword and scabbard under the pit of the left arm with the hilt just to the rear of the left shoulder (knuckle bow up). The shoe or lower edge of the scabbard is forward and slants downward to prevent the sword from falling out of the scabbard. The left arm is crooked so that the left hand supports the scabbard forward of the shoulder. The fingers of the left hand are joined and wrapped around the top of the scabbard, and the thumb is wrapped around and supports it from underneath. The upper left arm holds the scabbard against the body.

4003. **DRAW SWORD**

1. The command is “Draw, SWORD.”

2. On the preparatory command “Draw,” grip the scabbard just below the upper ring mounting with your left hand. Turn the scabbard clockwise about 180 degrees and tilt it forward to form an angle of 45 degrees with the deck. Grasp the sword grip with your right hand and pull it about six inches out of the scabbard. Your right forearm should now be parallel to the deck, your left hand holding the scabbard against your side.

3. On the command of execution “SWORD:”

   a. Draw the sword smartly out of the scabbard, raising your right arm to its full length directly in front of you at an angle of 45 degrees with the sword in a straight line with your arm and shoulder, the true edge down; at the same time, lower your left hand to your side.

   b. Pause for one count.

   c. Lower your right arm down toward your right side while at the same time bringing the point of the sword blade toward your right shoulder. Upon completion of this motion, the blade will be in a vertical position with the back of the blade against the shoulder seam of your coat/shirt, the back of the grip to the rear and your arm fully extended, with your thumb and forefinger gripping the lower part of the grip. The blade should touch your shoulder simultaneously with the action of the right hand’s placement along the trouser seam. Your thumb is along your trousers seam, and the remaining fingers joined in a natural curl behind the end of the hilt as if holding a pen or pencil. This is the position of carry sword.
Figure 4-3.--Draw Sword To Carry Sword.

4004. **PRESENT SWORD FROM CARRY OR ORDER SWORD**

1. The command is “Present, Sword (ARMS).” It may be given only when halted at order sword or carry sword. It is executed in two counts.

2. On “Present,” raise the right hand to the level of and 6 inches in front of the neck. Keep the thumb on the left side of the grip, wrist slightly bent, and inner forearm against the body. The blade should incline forward at a 30-degree angle from vertical.

3. On “SWORD (ARMS),” bring the point down smartly, without whipping, to a position three inches above the deck and slightly right of the right foot. Straighten the arm so the knuckle bow is against the trouser seam. The blade is inclined down and to the front with the true edge to the left. The thumb remains on the left side of the grip (see figure 4-3).

4. When at carry or order sword and it becomes necessary to salute without command, execute present sword. After the salute has been returned, go to order sword (then to carry sword if walking).
4005. ORDER SWORD FROM PRESENT SWORD

1. The command is “Order, SWORD (ARMS).” It is executed in one count.

2. On “SWORD (ARMS),” turn the true edge down. In this position, the right arm hangs naturally with the thumb along the trouser seam. The blade slants down to the front with the point 3 inches from the deck (see figure 4-5).
4006. **CARRY SWORD FROM ORDER SWORD OR PRESENT SWORD**

1. Carry sword is the position to which you will move the sword in the following situations:
   
   a. Giving commands.
   
   b. Changing positions in formation at quick time.
   
   c. Addressing or being addressed by a senior.
   
   d. The preparatory command for quick time *(FORWARD)* has been given.
   
   e. While marching at quick time. While marching with the sword at the carry, your arms should swing six inches to the front and three inches to the rear. Do not hold the sling or scabbard while marching.
   
   f. When any manual of arms movement has been ordered except parade rest, at ease, rest, present arms, or eyes right/left. When in formation with personnel to your front at normal distance or less (staffs excluded), remain at carry sword except at rest or at ease.

2. The command is “Carry, SWORD” it may be given only when halted at order sword or present sword. Cadets armed with the sword would also execute carry sword when the unit is given any manual of arms movement (e.g., port, left/right shoulder arms).

3. When at order sword and the command “Carry SWORD” is given. On the command of execution “SWORD,” bend the wrist without bending the elbow, and bring the false edge of the blade against the shoulder seam, blade vertical back of the grip to the rear, and the arm nearly extended. The right thumb and forefinger embrace the lower part of the grip, with the thumb against the trouser seam, and the remaining fingers joined in a natural curl behind the end of the hilt. In order to maintain control of the blade the right hand should maintain contact with the leg throughout the movement. This action to move the blade upward should resemble an upside down “U” along the leg—not a flick of the wrist. The thumb and forefinger should apply pressure against the grip in order to keep the sword snugly into the small of the shoulder.

4. When at present sword and the command of “Carry, SWORD” is given.
a. On the preparatory command of “Carry,” turn the true edge down. In this position, the right arm hangs naturally with the thumb along the trouser seam. The blade slants down to the front with the point three inches from the deck.

b. On the command of execution “SWORD,” bend the wrist without bending the elbow, and bring the false edge of the blade against the shoulder seam, blade vertical back of the grip to the rear, and the arm fully extended. In order to maintain control of the blade the right hand should maintain contact with the leg throughout the movement. This action to move the blade upward should resemble an upside down “U” along the leg—not a flick of the wrist. The right thumb and forefinger embrace the lower part of the grip, with the thumb against the trouser seam, and the remaining fingers joined in a natural curl behind the end of the hilt. The thumb and forefinger should apply pressure against the grip in order to keep the sword snugly into the small of the shoulder.

4007. **EYES RIGHT (LEFT) FROM CARRY OR ORDER SWORD**

1. The command is “Eyes, RIGHT (LEFT).” It may be given when halted at order sword or when marching at carry sword. It is executed in two counts.

2. **Eyes Right (Left) While Halted**

   a. On “Eyes,” raise the right hand to the level of and six inches in front of the neck. Keep the thumb on the left side of the grip, wrist slightly bent, and inner forearm against the body. The blade should incline forward at a 30-degree angle from vertical. This movement is the same as that made on the preparatory command of “Present.”

   b. On “RIGHT (LEFT),” bring the point down smartly, without whipping, to a position 3 inches above the deck and slightly right of the right foot. Straighten the arm so the knuckle bow is against the trouser seam. The blade is slanted down and to the front, with the true edge to the left. The thumb remains on the left side of the grip. At the same time, turn the head and eyes 45 degrees to the right (left). If in extreme right (left) file, continue looking straight ahead.

3. **Order Sword From Eyes Right (Left) (Executed While Halted)**

   a. The command is “Ready, FRONT.” It is executed in one count.

   b. On “FRONT,” turn the true edge of the sword down. At the same time, turn the head and eyes smartly to the front.

4. **Eyes Right (Left) While Marching**

   a. The command is “Eyes, RIGHT.”

   b. The preparatory command “Eyes” is given as the right foot strikes the deck.

   c. As the left foot strikes the deck raise the right hand to the level of and 6 inches in front of the neck. Keep the thumb on the left side of the grip, wrist slightly bent, and inner forearm against the body. The blade should incline forward at a 30-degree angle from vertical. This movement is the same as that made on the preparatory command of “Present.” The left arm continues to swing naturally.

   d. The command of execution “RIGHT” is given as the right foot strikes the deck.

   e. As the left foot strikes the deck bring the point down smartly, without whipping, to a position 3 inches above the deck and slightly right of the right foot. Straighten the arm so the knuckle bow is near but not touching the trouser seam. The knuckle bow does not rest against the trouser seam while marching in order to prevent the sword from moving. The blade is slanted down and to the front, with the true edge to the left. The thumb remains on the left side of the grip. At the same time, turn the head and eyes 45 degrees to the right. If in extreme right file, continue looking straight ahead. The right arm does not swing. The left arm continues to swing naturally.
f. To execute eyes left while marching, use the above sequence substituting left for right and right for left.

5. Carry Sword from Eyes Right (Left) (Executed When On The March)

   a. The command is "Ready, FRONT." Execution is begun on the preparatory command.

   b. The preparatory command "Ready" is given as the left foot strikes the deck.

   c. As the right foot strikes the deck turn the true edge of the sword down.

   d. The command of execution "FRONT" is given as the left foot strikes the deck.

   e. As the right foot strikes the deck raise the sword to carry. At the same time, turn the head and eyes to the front.

   f. The best way to remember the movements of the sword when executing eyes right and ready front while marching is:

   
   | Foot       | RIGHT | LEFT | RIGHT | LEFT | LEFT | RIGHT |
   | Command    | "Eyes, (UP)" | RIGHT | (DOWN) | "Ready, (DOWN)" | FRONT | (UP) |

4008. PARADE REST FROM CARRY OR ORDER SWORD

1. The command is "Parade REST." This command is normally given from order sword, in which case it is executed in one count.

2. If given when at carry sword, go to order sword on the command of "Parade." "REST," move the left foot smartly 12 inches to the left. At the same time, lower the point of the sword to the deck, place the left hand behind you, at the small of the back, fingers extended and joined, thumb along the hand.

3. Order Sword From Parade Rest

   a. The command is "Platoon (Company or Detail), ATTENTION." It is executed in one count.

   b. On "ATTENTION," bring the left heel smartly against the right and the left hand back to the side. Raise the blade so the point is 3 inches from the deck.

4009. AT EASE FROM CARRY OR ORDER SWORD

1. The command is "AT EASE." It may be given from any position of the sword.

2. On "AT EASE," go to order sword if not already at that position. Then move the left foot 12 inches to the left and lower the point of the sword to the deck. Rest the weight equally on both feet with the legs straight. At the same time, place the left hand behind you. Keep the fingers straight and joined, the palm flat and facing rear. You may relax and, except for your right foot and sword point, move about. Do not talk.

4010. REST FROM ANY POSITION OF THE SWORD. The command is "REST." It is executed in the same manner as at ease, the only difference being that you may talk.

4011. TO RETURN TO ATTENTION

1. The command is "Platoon (Company or Detail), ATTENTION." Execution is begun on the preparatory command.
a. On “Platoon (Company or Detail)” go to parade rest.

b. On “ATTENTION,” bring the left heel smartly against the right and the left hand to the side. Raise the blade so the point is 3 inches from the deck.

4012. RETURN SWORD FROM CARRY OR ORDER SWORD

1. The command is “Return, SWORD.” Execution is begun on the preparatory command.

   a. On the preparatory command “Return,” raise the right hand and sword to a position six inches in front of the neck, as in the first count of present sword. At the same time, grasp the scabbard with the left hand just above the upper brass mounting ring. Tilt is forward and turn it clockwise 180 degrees. The scabbard should form a 45-degree angle with the deck. Then lower the sword point to a position just above the opening of the scabbard. Look down at the opening. Guide the point into the opening with the left thumb and forefinger until the right wrist and forearm is parallel to the deck. At the same time, raise the head back to attention. The left hand holds the scabbard against the side.

   b. On the command of execution “SWORD,” push smartly down on the grip so it will slide all the way into the scabbard. Then bring the right hand smartly back to the right side. At the same time, rotate the scabbard with the left hand 180 degrees counterclockwise and return the left hand to the position of attention (see figure 4-6).
Figure 4-6.--Return Sword.
CHAPTER 5
GUIDON MANUAL

5000. GENERAL

1. The guidon is a company/platoon identification flag. It is carried on an 8-foot staff at ceremonies and at other times prescribed by the SNSI/NSI. (See figure 5-1.)

![Guidon Flag](image)

**Figure 5-1.--Guidon and Staff.**

2. In garrison, the guidon may be displayed at company headquarters between morning and evening colors, except during inclement weather and when carried in formation.

3. In selecting a guidon bearer, the SNSI or NSI should choose an individual who is outstanding in bearing, appearance, and ability.

4. When acting as guidon bearer, the individual is considered under arms and does not have to carry a weapon. If a weapon is carried, it will be slung or holstered.

5. The guidon is brought to present guidon, parade rest, and order guidon with the company.

6. When at route step or at ease march, the guidon may be carried in either hand.

7. When at order guidon, the guidon is brought to carry on the preparatory command for any facing or marching movement.

8. The guidon staff should be marked with two thumbtacks. The first tack marks the position of the guidon bearer’s right thumb position at order guidon. The second thumbtack is placed 6 inches below the first tack to mark the guidon bearer's right thumb position at carry guidon.

9. The two grasps of the guidon are identified as the “V” grip and the strong grip. For the “V” grip, the staff is placed in the “V” formed by the thumb and fingers of the right hand, thumb along the trouser seam with the fingers extended and joined. The strong grip is when the thumb is wrapped around the front of the staff with the fingers wrapped to the rear. (See figure 1-4)
a. The "V" grip is used at the order and when executing "Present Guidon" and during "Eyes Right/Left" and "Officers Center." (See figure 1-5)

b. The strong grip is used while on the march and facing movements.

10. All guidon movements are performed at 112-120 beats per minute.

5001. ORDER GUIDON. At order guidon, the ferrule rests on the deck touching the outside edge of the right shoe close to the little toe. The staff is grasped in the "V" grip with the right elbow close to the side so that the forearm helps to support the staff. The upper staff rests in the hollow of the right shoulder. The staff is vertical with the flat side of the spearhead facing front. The rest of the body is at attention. (See figure 5-2.)

5002. CARRY GUIDON. This is the normal position of the guidon while marching at quick time. It is carried using the strong grip with the ferrule 6 inches above the deck and the flat side of the spearhead facing front. (See figure 5-3.)
5003. **DOUBLE TIME WITH THE GUIDON.** For marching at double time, on the preparatory command, bring the staff across the body with the spearhead to the left. The right hand grasps the same spot as at carry. The right forearm is level with the deck and the elbow against the body. Grip the staff with the left hand in front of the point where the neck and left shoulder join. The flat side of the spearhead should face front. (See figure 5-4.)
5004. CARRY GUIDON FROM ORDER GUIDON. This three-count movement is executed on the preparatory command for any movement that will require the guidon bearer's feet to be moved. Execution is begun on a preparatory command such as “Forward,” “About,” etc.

Note: Unit leaders should pause before giving the command of execution to allow the guidon bearer time to execute this movement.

1. On the preparatory command, reach across the body and grasp the staff with the left hand.

2. Change the grasp to the strong grip, while raising the staff with the left hand until the ferrule is 6 inches above the deck. Hold the staff vertical with the right hand.

3. Move the left hand smartly back to the side.

5005. READY GUIDON FROM ORDER OR CARRY GUIDON

1. This movement is used as a signal for helping the cadets in the execution of commands where hearing verbal commands is difficult, such as when in a very large formation or when following closely behind a band. On the preparatory command of marching movements, for example FORWARD, the guidon is raised to ready guidon with the flat edge of the spearhead to the front. Without changing position of the right hand, raise the guidon vertically over your head until your right hand is in line with your right shoulder, your right elbow touching your side. Simultaneously move the left hand across the body and grasp the staff at a point directly in front of the right hip, left forearm against the body. Hold the guidon in this position until the command of execution is given, such as MARCH, then lower the guidon to the carry, smartly returning the left hand to the left side.

2. Ready guidon may be used as a signal for the execution of any command except present arms and eyes right (left) since the guidon is also rendering honors at that time.

3. Ready guidon may also be executed without command during formation of a unit prior to march on for a review of parade. The guide executes it after the unit has been brought to attention (right shoulder arms if so armed) after the adjutant has commanded, “Sound, ATTENTION.” Ready guidon is used to signal the adjutant that the unit is ready for his next command.

Figure 5-5.--Ready Guidon
5006. **ORDER GUIDON FROM CARRY GUIDON.** This two-count movement is executed without command at the completion of any movement that required the guidon bearer to come to carry guidon. If there are a series of movements, executed immediately one after the other, order guidon will not be executed until after the final one. However, during NJROTC drill competition, the guide will execute order guidon after each movement. Order guidon is executed in two counts by 1) allowing the staff to slip through the right hand until the lower ferrule rests on the deck (This movement may create an audible sound as the ferrule touches the deck) and 2) changing the grasp to the “V” grip. The left hand does not assist this movement.

5007. **PRESENT GUIDON FROM ORDER OR CARRY GUIDON.** From order or carry guidon, this movement is executed on command. During officers center, the movement is executed after halting, from the carry and without command. Since the right hand is 6 inches lower on the staff at carry than at order, the ferrule will extend farther to the rear when at present guidon from order than it will at present guidon from the carry.

1. From order guidon, the command is "Present, ARMS." It is executed in one count.

2. On "ARMS," lower the guidon straight to the front. The right arm is extended until the lower portion of the staff rests in the pit of the right arm and the entire staff is horizontal to the deck. As the staff is lowered rotate the staff to the right so that the sharp edge of the spearhead faces down. Hold the right elbow firmly against the body. (See figure 5-6.)
3. From carry guidon and while on the march, the command is “Eyes, RIGHT (LEFT).” It is executed in the following manner:

   a. On the command "Eyes, RIGHT (LEFT)," if the guidon bearer is marching one pace to the left and one pace to the rear of the unit leader, it is executed in the same manner as from order guidon except that the head and eyes are turned right (left) 45 degrees as the guidon is lowered. (See figure 5-7b.)

   b. On the command "Eyes, LEFT," if the guidon bearer is marching in the extreme right file it is executed in the same manner as from order guidon except that the head and eyes are turned left 45 degrees as the guidon is lowered.

   c. On the command "Eyes, RIGHT," if the guidon bearer is marching in the extreme right file it is executed in the same manner as from order guidon with the head and eyes to the front as the guidon is lowered (See figure 5-7a.)
1. To return to order guidon, the command is "Order, ARMS."

2. On the preparatory command "Order," grasp the staff smartly and audibly with the left hand, palm up, at a point just forward of the right hand. (See figure 5-8.) On "ARMS," with the left hand, pull the guidon staff up and back to the vertical position of carry guidon, pivoting it on the right hand as it is lowered back to the right side. Then let the staff slide straight downward through the right hand until the lower ferrule rests on the deck, the left hand steadies the staff as it slides downward. Cut the left hand smartly back to its normal position at the left side. The flat side of the spearhead is back facing to the front.

3. To return to carry guidon the command is "Ready, FRONT."

4. On the preparatory command "Ready," grasp the staff smartly and audibly with the left hand, palm up, at a point just forward of the right hand. On "FRONT," with the left hand, pull the guidon staff up and back to the vertical position of carry guidon, pivoting it on the right hand as it is lowered back to the right side. The flat side of the spearhead facing to the front. Cut the left hand back to the left side and turn the head and eyes smartly to the front.

5. PRESENT GUIDON FROM CARRY GUIDON AT OFFICERS CENTER. This movement is executed without command, upon halting at officers center during a parade. It is executed in one count as explained in paragraph 5007.2. The movement will be executed on the fourth count after the command "Officers, HALT." For details on executing officers halt refer to MCO P5060.20 paragraphs 17006.9 through 17006.14.

5010. CARRY GUIDON FROM PRESENT GUIDON AT OFFICERS CENTER

1. The command is "Carry, SWORD." "Ready, TWO" if the officers are not armed with swords.

2. On the preparatory command "Carry (Ready)," grasp the staff with the left hand and on the command of execution "SWORDS (TWO)," bring the staff back to the carry guidon position as described in paragraph 5002.
5011. **GUIDON SALUTE FROM CARRY OR ORDER GUIDON.**

1. The command is GUIDON, SALUTE. It is executed in one count.

2. On SALUTE, move your left hand, palm down, smartly to a position approximately 18 inches above your right hand, keeping the left arm parallel to the ground. Keep your thumb and fingers straight and joined. Touch the staff with the first joint of your forefinger. Turn your head and eyes toward the person you are saluting.

3. After your salute is returned, move your left hand smartly back to your side and look to the front. See illustrations on the next page for the Guidon Salutes.

![Guidon Salute from Carry or Order Guidon.](image-url)
5012. RESTS WITH THE GUIDON

1. Parade Rest from Order Guidon

   a. The command is "Parade, REST." It is executed in one count. It may be given only when halted at attention.

   b. On the command of execution "REST," slide the right hand up the staff to shoulder height. The staff remains in place and vertical. Without lost of motion, straighten the right arm so the staff of the guidon tilts forward at 30 degrees. The fingers and thumb of the right hand are wrapped around the staff. The ferrule remains in the same position as at order guidon. The flat side of the spearhead remains facing front. Place the left hand in the small of the back. Keep the fingers straight and touching. The palm is flat and facing the rear. At the same time, move the left foot smartly 12" to the left without bending the knee. (See figure 5-11b.)

   a. Front
   b. Side

   Figure 5-11.--Parade Rest with the Guidon.

2. At Ease or Rest from Order Guidon. On the command "AT EASE" or "REST," the right foot remains in place and the guidon is held as in parade rest with the right arm relaxed slightly.

   a. The command is "AT EASE." It is executed in two counts. It may be given only when halted at attention.

   b. On the command, and for count one, execute parade rest as described in paragraph 5013.1b.

   c. On the second count, you may relax and, except for your right foot and ferrule, move about. Do not talk.

3. Fall Out from Order Guidon. The command is "FALL OUT." It may be given only from order guidon. Upon the command, leave your position in ranks but remain nearby.
4. Order Guidon from Rest Positions

   a. From parade rest, at ease, and rest, the command is "Platoon (Company or Battalion), ATTENTION." On the preparatory command, go to parade rest, if not already in that position. At the command "ATTENTION," go smartly to order guidon.

   b. From fall out, the command is "FALL IN." Upon the command, go back to your position in formation and stand at attention at order guidon.
1. When flown from ships or crafts of the Navy or from a flagstaff at commands ashore, the national flag will be displayed per the provisions of U.S. Navy Regulations. The national flag is also called the “national ensign” or “ensign.”

2. NJROTC units are equipped with a national flag and an organizational flag. The organizational flag is an official flag that is authorized for display by units of the NJROTC.

3. When mounted on a staff (pike) and carried by an individual on foot, or displayed or cased in a fixed location, the national flag is called the “national colors” and the organizational flag is called the “organizational colors.” The term “colors” means either or both the national colors and the organizational colors.

   a. The use of the plural form of the word color (colors) to designate a single flag, ensign, standard, or pennant comes from the ancient tradition of referring to the multiple colors found on these types of standards. This tradition is carried on today when we refer to the national colors; red, white, and blue. The plural form is also used when referring to the types of movements, ceremonies or musical accompaniment involving the colors, i.e., carry colors, morning colors, “To the Colors” etc.

   b. When designating personnel or units as part of color details then the appropriate singular or plural form of the word will be used, i.e., color guard, color company, etc.

4. When mounted on a vehicle, the national flag is called the “national standard” and the organizational flag is called the “organizational standard.” The term “standard” means the national standard only. The term “standards” means both the national standard and the organizational standard.

5. In garrison or on board ship, the colors of an organization, when not in use, are kept by the commanding officer. Whenever practicable, colors should be kept uncased and displayed in the office of the commanding officer, or other appropriate place. They may be cased, however, by placing them within a protective covering. Colors that are kept cased and not used often should be unfurled and aired frequently.

6. The colors (standards) may be carried in any formation in which two or more companies participate, and in escorts and honor guards when ordered. Separate companies and detachments authorized organizational colors, may carry colors when two or more platoons participate. Unless otherwise directed for special ceremonies, the national colors will always be carried when the organizational colors are carried, but the national colors may be carried alone.

7. In battalion formations, the colors (standards) will be posted with a designated color company and in regimental formations with a designated color battalion. The color company (battalion) is posted in the formation so that the color guard is in the approximate center of the formation (right or forward of center if this is impossible).
8. In most regimental formations, only the colors (standards) of the regiment will be carried. When two or more separate battalions are formed as a regiment, only the colors (standards) of one battalion will be carried for the regiment. When authorized by the commander, however, the organizational colors of subordinate organizations may be carried in ranks (massed color guard) arranged behind the parent organization’s color guard.

9. When the organizational colors are draped in mourning, the mourning streamer shall consist of a black crepe streamer 7 feet long and about 12 inches wide. A bowknot, the loops of which are 6 inches long, is tied in the center. This knot attaches the streamer to the upper ferrule, just below the spearhead. If a streamer attachment set is used; the bowknot will be tied on the upper ferrule below the streamer attachment set in a manner so as not to disturb the natural hang of the unit’s battle streamers.

10. Uncased colors will be treated with dignity and formality. When moved while outdoors, they will be marched by a color guard. Whenever possible, they will be escorted by a color company (battalion) from the organizational headquarters to the place of the ceremony. If it becomes necessary to case or uncase the colors outdoors, it will be accomplished with proper ceremony as described in paragraph 6019.

11. Whenever the colors are brought forward of the line of troops (e.g., trooping the colors, for retirements, awards, etc.) the command must present arms. If a band is present, then the appropriate music, e.g., “National Anthem,” “To the Colors,” or “Retreat” is played.

12. During training and rehearsals (except full dress rehearsals), colors will be cased.

13. Colors (standards) are never allowed to touch the deck.

15. The standard weapon used for the color guard is the NJROTC Drill rifle.

16. All NJROTC units, will refer to chapter 3 for the manual of arms.

17. The national and organizational colors are only destroyed when; they have become soiled beyond cleaning, torn beyond repair and to keep them from falling into enemy hands.

18. Flags that may have a historical significance are disposed of per the instructions contained in MCO P10520.3.

19. For further information concerning flags, streamers and guidons refer to MCO P10520.3.

6001. COLOR SALUTES

1. By the National Colors (Standard). The national colors (standard) renders no salute, except as specified in U.S. Navy Regulations, paragraph 1263.1.

2. By the Organizational Colors. In military ceremonies, the organizational colors salutes while the “National Anthem,” “To the Colors,” “Retreat,” or “Hail to the Chief” is being played, and when rendering honors to the organizational commander, individual of higher rank, or the dead, but in no other case. (See par. 6009.)

3. By the Organizational Standard. The organizational standard renders no salutes as it is mounted on a vehicle.
1. General

   a. The ceremonial hoisting and lowering of the national ensign at 0800 and sunset, respectively, shall be accomplished ashore per the provisions of U.S. Navy Regulations and this paragraph.

   b. A detail consisting of 3 or more cadets will hoist and lower the ensign.

   c. The SNSI/NSI will see that the proper ensign is flown at the appropriate time and under all weather conditions. For different types of ensigns. (See figure 6-1.) Any cadet who observes any hazard to the ensign, such as loosened halyards, fouling, etc., will immediately report them to the SNSI/NSI.

2. Positions of the Ensign. The ensign is flown from the peak or truck of the mast, except when directed to be flown at half-mast. The ensign at half-mast is flown, when possible, with the middle point of its hoist opposite the middle point of the mast. The middle point of a guyed mast is midway between the peak of the mast and the point of attachment of the guys (See figure 6-2). The middle point of a mast with a yardarm is midway between the peak of the mast and the yardarm. Technically an ensign at any position other than at the peak of the mast is half-mast. Local conditions may require other positions. To half-mast the ensign, it is first hoisted to the peak and then lowered to the half-mast position.

---

![Figure 6-1.—Different Types and Nomenclature of Ensigns.](image-url)
3. Hoisting the Ensign. The detail of at least 3 members assigned to hoist the ensign is formed in line carrying the folded ensign in the center. The detail is then marched to the flagstaff, halted, and the ensign attached to the halyards. The halyards are manned by the two cadets, who take positions on opposite sides of the staff, facing it, so they will be able to hoist the ensign without fouling it. The flag should be clearly marked so that the blue field is raised first. Additionally, the ensign should be pulled sufficiently, prior to the beginning of colors, to ensure the blue field is hoisted first. This action precludes the embarrassment of hoisting the ensign upside down. The unit leader continues to hold the ensign until it is hoisted clear of his grasp to prevent it from touching the deck. When the ensign is clear, the detail leader executes a hand salute. After the ensign is hoisted, the other members of the detail grasp the halyard in their left hand and execute a hand salute. On the last note of the “National Anthem” or “To the Colors,” all members of the detail terminate their hand salutes. If the ensign is to be flown at half-mast, it is then lowered slowly to that position. (See figure 6-2.) The halyards are then secured to the cleat of the mast. The detail is again formed, marched to their point of origin, and dismissed.

![Figure 6-2.--Position of National Ensign at Half-Mast.]

4. Lowering the Ensign. The detail is formed, marched to the flagstaff, and the halyards manned in the same manner as for hoisting the ensign. On the first note of the “National Anthem” or “Retreat,” the ensign is slowly lowered. If at half-mast, it is first hoisted smartly to the peak on the first note of the music, and then slowly lowered. The unit leader catches it at the last note of the music. The ensign is detached from the halyards and folded as prescribed below. The halyards are secured to the mast; the detail is formed and marched to its point of origin, where the ensign is turned over to the SNSI/NSI.

5. Replacing an Ensign Already Hoisted. There may be times when it is necessary to replace the ensign after morning colors but prior to evening colors. Some
examples are, changing to a storm flag due to inclement weather; the ensign becomes fouled in the halyards; the ensign is raised upside down; etc.

a. If the flagstaff is double rigged, i.e., has two sets of halyards, the new ensign is hoisted to the peak or truck and then the ensign being replaced is slowly lowered, folded and returned to its point of origin.

b. If the flagstaff has only one halyard, two color details are used to replace the ensign. The first color detail slowly lowers the ensign, and then quickly moves from the flagstaff to fold the old ensign. The second color detail, with the replacement ensign, then moves to the flagstaff and hoists the new ensign to the peak or truck. Both details salute as the replacement ensign is hoisted. Both color details then return their point of origin.

6. Folding the Ensign. The ensign is folded in half the long way so the crease parallels the red and white stripes. It is folded in half again so the new crease also parallels the red and white stripes with the blue field on the outside of the fold. The lower corner of the fly end (away from the blue field) is folded up to the top so the single (folded) edge lays perpendicular across the stripes. By repeatedly folding along the inboard edge of the triangle, the ensign is folded into the shape of a cocked hat. (See figure 6-3.)

![Diagram of flag folding process](image)

Figure 6-3.--Folding the Ensign.

6003. SALUTES AND HONORS TO THE NATIONAL FLAG

1. General. Salutes to the national flag are rendered per U.S. Navy Regulations. (See chapter 12, section 2.)

2. By Individuals. Individuals in the Navy, when in uniform and covered will render the appropriate salute (hand, rifle, etc.) as indicated below. Persons not in uniform will stand at attention, face the flag and place the right hand over the heart. Gentlemen, if covered, remove their headdress with the right hand and hold it at the left shoulder, so that the right hand is over the heart.

   a. During morning colors and evening colors individuals stop and face the flagstaff, or in the direction of the music, when "Attention" is sounded. Salutes are rendered by individuals on the first note of the "National Anthem," "To The
Colors," or "Retreat," and terminated on the last note. Individuals would remain at attention facing the flagstaff/music until "Carry On" is sounded, and then continue about their duties.

b. When being passed by or passing the national colors (standard) uncased.

c. Small flags carried by individuals and flags flying from flagstaffs, either standing alone or affixed to a building, (except during morning and evening colors) are not saluted.

d. A folded flag being carried to morning colors, or from evening colors, by a color detail is considered cased and not saluted.

3. By Persons in Formation

a. During morning colors and evening colors the formation commander stops the formation and causes it to face the flagstaff, or in the direction of the music, when "Attention" is sounded. The formation commander salutes for the formation on the first note of the "National Anthem," "To The Colors," or "Retreat," and terminate the salute on the last note. The formation is kept at attention facing the flagstaff/music until "Carry On" is sounded at which time the formation commander would move the formation to its destination or dismiss the formation.

b. When being passed by or passing the national colors (standard) uncased, persons in formation are brought to attention and order arms if halted, or attention if marching. The formation commander shall render the salute for his unit, facing the colors if the formation is halted. Persons in formation participating in a ceremony shall, on command, follow the procedure prescribed for the ceremony.

c. Small flags carried by individuals and flags flying from flagstaffs, either standing alone or affixed to a building, (except during morning and evening colors) are not saluted.

d. A folded flag being carried to morning colors, or from evening colors, by a color detail is considered cased and not saluted.

4. By Occupants of Vehicles. During morning colors or evening colors or when being passed by or passing an uncased national colors, all vehicles in motion will be brought to a halt. Persons riding in such vehicles shall remain seated at attention until colors are over or the color has passed.

6004. COMPOSITION OF THE COLOR GUARD

1. The size of a color guard may vary. The color bearers are unarmed and the national color bearer commands the color guard. He/she gives the necessary commands for the movements and rendering of honors. The organizational color is always positioned on the left of the national color. When only the national color is carried, the color guard will consist of only one color bearer. (See figure 6-4 a and b.)

Figure 6-4 a. Composition of a typical NJROTC Color Guard
2. If a female is part of the color guard, for uniformity she wears trousers and not a skirt. The color bearers should not wear medals or ribbons and badges because the slings will destroy them. (Optional) Slings are adjusted so that the colors are the same height when at the carry or, if this isn't possible, the national colors are slightly higher than the organizational colors. If necessary, have the senior color bearer slightly taller than the organizational color bearer. All members of the color guard may wear the guard belt; the color bearers wear the guard belt over the sling to keep the sling firmly in place. If the color guard is wearing the combination cover, then they may use two chin-straps. One is worn normally and the second one (black plastic only) is worn under the chin. When only the national colors is carried, the color guard will include only one color bearer.

3. The NJROTC color guard is formed and marches in one rank at close interval with the color bearers in the center. The color guard marches at the normal cadence of 112-120 thirty-inch steps per minute (quick time). The color guard does not execute to the rear march, about face, flanking movements. When the unit to which the color guard is attached executes any such commands, the national color bearer orders an appropriate movement, which will be covered later in this chapter. The color guard is formed and marches in one rank at close interval with the color bearers in the center. While marching, members of the color guard do not swing their free arms. The color guard does not execute to the rear march, about face, flanking movements or fix bayonets. When the unit to which the color guard is attached executes any such commands, the senior color bearer orders a movement appropriate for the color guard.

Note: The aisles may be too narrow for a color guard to march in normal formation. The color guard would then march in by two's or in column of ones. If marching in by twos then the color bearers lead and the riflemen follow. Upon reaching the spot for presenting the colors, the riflemen would step into their normal position. If marching in a column of ones the order of march is ALWAYS, right color guard, national color bearer, organizational color bearer, left color guard. When reaching their spot the color guard would reform. Make sure the colors don't reform inverted.

4. All colors carried by the color guard are attached to staffs of equal height. The standard color staff consists of a 9 1/2-foot, hardwood pole capped at each end by metal ferrules. The staff ornament for the Colors, when displayed in the NJROTC color guard formation, shall be the battle-ax on the 9 1/2 foot pole or the spearhead on the 8 foot pole. A battle-ax shall also top the flagstaff on which is flown the Navy flag and battalion colors. The cutting edge of the battle-ax shall face forward for all drill movement.

5. The 9 1/2 foot wooden pole or the 8 foot wooden pole are the only authorized poles to be use for drill meet competition. Metal/Aluminum Poles are not authorized for Drill Meet Competition. The 9 1/2 foot wooden pole will carry the 5' x 7' flags, and the 8 foot wooden pole will carry the 3' x 5' flags. The 3' x 5' flags will not be displayed with the 9 1/2 foot wooden poles.
6. Color guards carrying the Navy and Marine Corps service colors will consist of five members, three Marines and two Navy members. The national color bearer and commander of the color guard will be a Marine. (See figure 6-4b.)

7. The flags or banners of non-U.S. military organizations (e.g., Boy Scouts, Kiwanis Club, etc.) are not carried in the color guard.

8. Color guards armed with rifles will be trained to execute a modified rifle manual. This involves pauses on the part of one or the other riflemen so that the rifles move to and from the right and left shoulders at the same time, as described in paragraph 6005.

9. The color bearers are unarmed, but the color guards carry rifles (except when inside a chapel). When participating in a ceremony inside a chapel, the color guard will be unarmed and uncovered.
6005. **Synchronizing the Manual of Arms for the Color Guards**

1. The manual of arms for color guards armed with rifles must be synchronized so that the rifles move (e.g., off of or to the shoulder) at the same time. Since the left rifleman is at left shoulder arms and the right rifleman is at right shoulder arms, moving to and from the right/left shoulder to the order, present or back to the shoulder often involves different “counts” in the movement for each rifleman. To get the rifles moving together one or the other of the rifleman will have to do an occasional pause in the manual of arms so the other rifleman may catch up. When executing the rifle manual, both riflemen will wait for the senior color bearer’s command of "Ready CUT" before executing the final count of the movement.

   a. **Order Colors to Carry Colors.** The command is “Carry, COLORS.” This is a four-count movement for both riflemen. The right rifleman goes to right shoulder arms and the left rifleman goes to the left shoulder arms.

   b. **Carry colors to Order Colors.** The command is "Order COLORS." This is a four-count movement for the right rifleman and a five-count for the left rifleman. In order to have the rifles move to the order together, the “counts” are modified as follows: (See figure 6-6.)

   ![Figure 6-6. - Carry Colors to Order](image)

   a. Start.

   b. Count One:
      Right Rifle Stands Fast.
      Left Rifle Re-grasps the Small of the Stock.

   DM-75
c. Count Two. Both Rifles Moved from the Shoulder
d. Count Three. Both Riflemen Re-grasp the upper Hand Guard
e. Count Four. Both Rifles Moved to the right side
f. Count Five. Ready Cut

c. Order Colors to Present Colors. The command is “Present, COLORS.” This is a two-count movement for both riflemen, with both executing present arms with the rifle.

d. Present Colors to Order Colors. The command is “Order, COLORS.” This is a three-count movement for both riflemen, with both executing order arms with the rifle.

e. Carry Colors to Present Colors. The command is “Present, COLORS.” This is a three-count movement for both riflemen; however, it becomes a four-count movement to synchronize the rifles being brought from the left and right shoulder to present arms. (See figure 6-7.)
a. Start

b. Count One. Right Rifle Stands Fast. Left Rifle Re-grasps the Small of the Stock

Figure 6-7 Carry Colors to Present Color.
c. Count Two.
Both Rifles Moved from the shoulder.

d. Count Three
Right Rifle Re-grasps the small of the Stock. Left Rifle Stands Fast

e. Count Four.
Both Rifles Rotated to Present Arms

Figure 6-7 Carry Colors to Present Color—Continued.
f. **Present Colors to Carry Colors.** The command may be “Carry, COLORS” or “Shoulder, ARMS.” This is a three-count movement for the left rifleman and a four-count movement for the right rifleman to return the weapons to the left and right shoulder from present arms. (See figure 6-8.)

a. Start

b. Count One.  
Both Rifles Rotated to Port Arms

c. Count Two.  
Right Rifle Grasps the Butt of the Rifle.  
Left Rifle Stands Fast.
d. Count Three
Both Rifles Moved to the Shoulder.

e. Count Four.
Ready Cut.

Figure 6-8 Present Colors to Carry Colors
6006. **ORDER COLORS**

1. At order colors, the ferrule rests on the deck touching the outside edge of your right shoe.

2. The staff is gripped in a strong grip with the thumb wrapped around the front of the staff and the fingers wrapped to the rear.

3. Color guards armed with rifles are at order arms when the colors are at the order. The proper position of the color at order color is shown in the illustration below.

![Fig. 6-9 a. Order Colors using either the 8 foot wooden pole or the 9 ½ foot wooden pole with Color Bearers using the “Strong Grip.”](image-url)
6007. CARRY COLORS FROM ORDER COLORS

1. When changing from order color to carry color, the command is **CARRY, COLORS**.

2. At the command, **CARRY**, change your grip on the staff to the “V” grip so as to grip it from the rear between your right thumb and fingers, the fingers around the staff.

3. At the command **COLORS**, raise the staff smartly with your right hand to a point where the lower ferrule is just above the sling socket. While raising it, keep the staff pointing straight up. Grasp the staff at the lower ferrule with the left hand to steady it and align it with the sling socket. Do not look down.

   Note: All organizational colors will be raised to the carry with the national colors.

4. Seat the lower ferrule in the sling socket. As the ferrule is seated, let your right hand slide down the staff to a position directly in front of your chin.

5. Grip the staff firmly with the right hand and move the left hand smartly to your side. In this position, the right hand is directly in front of your face and the staff is inclined slightly to the front.

6. Color guards armed with rifles execute right and left shoulder arms at the command **COLORS** so that the rifles are on the outside shoulder. See illustrations below for proper movements and position of carry colors.

7. All members of the color guard will halt their movements before executing the last count. On the senior color bearer’s command “Ready, CUT,” all members will move their free hands smartly to their sides. If the colors staffs need additional support due to high winds, the color bearers will grip the staff with their left hands just below their right.
Fig. 6-10 a. Colors Bearers changed grip to "V"

Figure 6-10 b. Raising Staff
Movements of Carry Colors from Order Colors

6008. ORDER COLORS FROM CARRY COLORS

1. When changing from carry colors to order colors, the command is “Order, COLORS (ARMS).” Execution is begun on the preparatory command.

2. At the command “Order,” grip the staff with the left hand above the ferrule and remove the staff from the sling socket. The staff moves to the right side of the body with the ferrule just forward of the sling socket. (See figure 6-1la.)

3. At the command “COLORS,” lower the staff to a point approximately 2 inches above the deck along the outside edge of the right shoe; release the staff with the left hand and re-grip it above the right hand. (See figure 6-1lb.)

4. Relax both hands so the staff will slide down until the ferrule rests on the deck. Then trim or strip the colors by maintaining a grip on the staff with the left hand and raising the right hand to lightly grasp the fabric of the colors. Pull it down along the staff (do not attempt to throw or tuck it) and re-grip the staff with the right hand, with the fabric under the right arm. (See figures 6-1lc and d.) Then change the position of the right hand to that described for order colors.

5. Color guards armed with rifles will execute order arms from right and left shoulder as described in paragraph 6005.1b. All members of the color guard will halt their movements before executing the last count. The senior color bearer will then command “Ready, CUT,” at which time all members of the color guard will return their left hands smartly to their sides and colors guards will assume order arms. (See figure 6-1le.)

b. Lowering the Staff  

c. Trimming the Colors  

d. All Movement Halted  

Figure 6-11 Order Colors from Carry Colors  

e. Movement Complete
6009. **PRESENT COLORS FROM ORDER COLORS**

1. To change from order colors to present colors the command is “Present, COLORS (ARMS).” Execution is begun on the preparatory command.

2. At the command “Present,” both color bearers change the grip on the staff in the same manner as for carry colors. The national color bearer executes the movement to carry colors. (See figure 6-12 a.)

3. At the command “COLORS,” organizational color bearer executes the movement to carry colors. The color guards execute present arms. (See figure 6-12.)

4. On the senior color bearer’s command “Ready, CUT,” only the color bearers will move their left hands smartly to their sides.

5. Once the color guard is at present colors, and when appropriate, the organizational color bearer will render a salute with the organizational colors by straightening the right arm and lowering the staff naturally to the front. The staff will rotate naturally as it goes forward causing the sharp edge of the spearhead to face down. If carrying the 9 ½ foot pole, the cutting edge of the battle-ax shall face forward. (See figure 6-4.)

6. Salutes by the organizational colors are not automatic when presenting colors. They will be rendered only during honors to national colors, to the commander of the organization represented by the colors or to an individual senior in rank to the organizational commander. (e.g., during a parade or review when the adjutant presents the command to the commander of troops, the organizational colors do not salute, unless the commander of troops is the organizational commander or of higher rank.)

7. When musical honors are played, the organizational colors will salute on the first note of music. The colors will be returned to the vertical position following the last note of music or the last volley of a gun salute. If no music is to be played and a color salute is appropriate, the organizational colors will salute immediately after the color guard has gone to present colors.

8. When marching, the salute is rendered when 6 paces from the reviewing stand or person to be saluted. Carry colors is resumed when 6 paces beyond the reviewing stand or person to be saluted.
Figure 6-12 a. Start Present Colors from Order Colors

Figure 6-12 b. Salutes by the Organizational Colors
6010. ORDER COLORS FROM PRESENT COLORS

1. When changing from present colors to order colors, the command is “Order, COLORS (ARMS).”

2. At the command “Order,” if the organizational colors are still saluting, it will be brought back to the vertical position with the flat side of the spearhead facing the front. The color bearers then grip the staff with the left hand above the ferrule and remove the staff from the sling socket. (See figure 6-11.)

3. At the command “COLORS,” all colors are brought to the position of order colors. Color guards execute order arms from the shoulder. Colors are trimmed, if necessary, and the command “Ready, CUT” is given in the same manner as for order colors from carry colors. (See figure 6-11 b-e.)

6011. PRESENT COLORS FROM CARRY COLORS

1. To change from carry colors to present colors, the command is “Present, COLORS (ARMS).”

2. At the command of execution “COLORS,” the color guards execute present from the shoulder. (See figure 6-7 a-e.)

3. The national color bearer remains at carry colors.

4. The organizational color will salute if appropriate.

6012. CARRY COLORS FROM PRESENT COLORS

1. To change from present colors to carry colors, the command is “Carry, COLORS.”

2. At the command “Carry,” if the organizational colors are saluting, it will be brought back to the vertical position with the flat side of the spearhead facing the front.

3. At the command “COLORS,” color guards return to the shoulder as described in paragraph 6005. Before executing the last count, the color guards will await the senior color bearers command “Ready, CUT.”

6013. RESTS WITH THE COLORS

1. The color guard assumes the parade rest position in lieu of at ease or rest. At ease or rest are not used by the color guard when carrying uncased colors. Only the senior color bearer or person in charge of a formation with which colors are posted gives the command from the position of order color. It is executed in one count.

2. At the command “Parade, REST;” “AT EASE;” or “REST,” all members of the color guard execute parade rest. The color staff will remain along the color bearer’s side and will not be thrust forward as with a guidon staff. (See figure 6-13.) The national and organizational colors bearers will grasp the sling socket with their left hand.
a. Front View.

b. Rear View

Fig. 6-13  Color Guard at Parade Rest.
6014. EYES RIGHT (LEFT) FROM CARRY OR ORDER COLORS

1. The command is “Eyes, RIGHT (LEFT).” It will be given only when marching at carry colors or while halted at order colors.

2. When halted at order color, at the command “RIGHT,” all members of the color guard except the national color bearer turn their head and look 45 degrees to the right. (See figure 6-14 a.) The organizational color cannot salute from order color.

3. When halted at order color, at the command “LEFT,” all members of the color guard except the national color bearer turn their head and look 45 degrees to the left. The organizational color cannot salute from order color.

4. When marching at carry color, at the command “RIGHT,” all members of the color guard except the national color bearer and the individual on the right turn their head and look 45 degrees to the right. When the reviewing officer of a parade is entitled to a salute by the organizational colors, the salute is executed at the command “RIGHT.” (See figure 6-14 b.)

5. When marching at carry color, at the command “LEFT,” all members of the color guard except the national color bearer and the individual on the extreme left turn their head and look 45 degrees to the left. When the reviewing officer of a parade is entitled to a salute by the organizational colors, the salute is executed at the command “LEFT.”
6015. CARRY OR ORDER COLORS FROM EYES RIGHT (LEFT)

1. The command is "Ready, FRONT."

2. When marching at carry colors, at the senior color bearer’s command "Ready," if the organizational colors saluted, it resumes to the carry. At the command "FRONT," all members of the color guard who executed eyes right (left) will return their head and eyes smartly to the front.

3. When at order colors during a review when the reviewing officer troops the line, ready front will not be given after eyes right. During such a ceremony, members of the color guard who executed eyes right, will follow the reviewing officer with their eyes, turning their heads back toward the front as he passes by. Once the reviewing officer is directly in front of them, all movement of the head and eyes is halted.
6016. TRAIL ARMS WITH COLORS

1. When performing indoor ceremonies in a location that the door, ceilings, etc. are not high enough to carry colors in the normal manner, the color colors would be carried at trail.

2. Trail arms is assumed without command on any command that will cause the color guard to move. (e.g., "Forward, MARCH;" "Right Turn, MARCH;" etc.)

3. Color bearers, on the preparatory command, raise the staff 6 inches off the deck. Color guards assume trail arms.

4. On the command of execution, step off and move a short distance until given the command halt.

NOTE: If necessary to lower the colors to clear a doorway reach across the body with the left hand and grasp the colors. Left forearm is straight and parallel to the deck, the palm to the rear. All colors are tilted forward sufficiently to clear the door or ceiling spearhead flat to the front.

5. When the command to halt is given the colors bearers return the colors to the order and move the left arm back to the left side. Color guards return to the order.
6017. **FACE THE COLOR GUARD TO THE RIGHT (LEFT)**

1. The command is **“Right (Left) Turn, MARCH.”** It may be executed while halted, marking time, or marching.

2. On the command **“MARCH,”** with the right (left) flank color guard acting as a stationary pivot, the color guard turns to the right (left) while half stepping until they face the new direction. When making the turn, all members of the color guard face the same direction maintaining their alignment. (See figure 6-16.) Upon completion of the turn, the color guard will be marking time. The senior color bearer must immediately give the next appropriate command, such as **“Forward, MARCH”** or **“Colors, HALT.”**
6018. FACE THE COLOR GUARD TO THE REAR

1. The command is "Countermarch, MARCH." It may be executed while halted, marking time, or marching. When marking time or marching, the command of execution "MARCH" is given as the left foot strikes the deck. On the command of execution, the entire color guard takes one step forward with the right foot and executes the movement. (See figure 6-17.)

2. The national color bearer pivots to the left, moving into the position formerly occupied by the organizational color bearer, facing the new direction of march and begins marking time.

3. The organizational color bearer takes one half step forward, pivots to the right outside the national color bearer, moving into the position formerly occupied by the national color bearer, facing the new direction of march and begins marking time.

4. The right color guard takes two half-steps forward, pivots to the left, outside the organizational color bearer, moving into the position formerly occupied by the left color guard, facing the new direction of march and begins marking time.

5. The left color guard takes three half-steps forward, pivots to the right outside the right color guard, moving into the position formerly occupied by the right color guard, facing the new direction of march and begins marking time.

6. Upon completion of this movement, the entire color guard marks time until it is halted or until it receives the command "Forward, MARCH" or "Colors, HALT."

Fig. 6-17
6019. CASING AND UNCASING THE COLORS

1. While it is not a precision movement, casing and uncasing the colors should be accomplished with appropriate dignity and ceremony.

2. To uncase the colors, the color guard will be formed at carry colors. The supernumerary or other designated individual(s) will center on the color guard. First the national color bearer and then the organizational color bearer will lower their staffs so that the cases may be removed. The individual(s) removing the cases will then step back and salute the national colors before retiring. (See figure 6-19a.)

3. To case the colors, the color guard will be formed at carry colors. The individual(s) with the cases will center on the color guard and salute the national colors. The organizational color bearer followed by the national color bearer will lower their staffs so that their colors may be furled and cased. Rather than wrapping the colors around the staff, the colors should be folded on top of the staffs and held until the cases are slipped on. The rope and tassel and streamers, if any, are kept clear until the colors are folded onto the staff, and then are placed as flat as possible, on the colors. This may require two persons to accomplish. (See figure 6-19 b. and c.) Care should be taken to ensure that color cases fit easily over the colors. Cases constructed with too narrow of a diameter cause undue wrinkling and may even damage the colors.
6020. INDOOR CEREMONIES INVOLVING COLOR GUARDS

1. On occasion color guards will be required for indoor ceremonies, military or civilian. Normally an indoor ceremony consists of marching on the colors, the “National Anthem,” (or pledge of allegiance), posting the colors and retiring the colors. Close coordination with the master of ceremonies, and an on-site rehearsal (if possible) are needed to preclude confusion and misunderstandings during the ceremony.

2. The Normal Sequence of Events Should be as Follows:

   a. The master of ceremonies asks the guests to please rise for the march on the colors and to remain standing for the “National Anthem” and the posting of the colors.

   b. The color guard marches in from the designated entry and moves to its position, and does a right (left) turn or countermarch to face the audience and remains at the carry. The senior color bearer then gives the command “Present, COLORS.” The color guard executes. After the “National Anthem” is played the senior color bearer gives the command “Carry, COLORS.” The senior color bearer would then give the commands necessary to move the color guard to 3 paces in front of where the colors are to be posted, halts and gives the command to “Order, COLORS.” Once the color guard is at the order, the organizational color bearer then steps to the right oblique and places the organizational colors in the stand. Once the organizational color bearer is back in position the national color bearer steps to the left oblique and places the national colors into the stand. (See figure 6-20.) When the national color bearer is back in position the senior color bearer commands “Present, ARMS.” The riflemen execute present arms and the color bearers execute a hand salute. The senior color bearer then commands “Order, ARMS;” “Shoulder, ARMS;” and then using whatever commands necessary, marches the color guard from the auditorium.
3. When it is time to retire the colors, the color guard assumes its position to re-enter the auditorium for that part of the ceremony.
   
a. The master of ceremonies would than ask for the guests to rise for the retiring of the colors.
   
b. The color guard marches to a position 3 paces in front of where the colors are posted, halts and goes to the order. (See figure 6-19.) The senior color bearer then commands "Present, ARMS." the riflemen execute present arms and the color bearers execute a hand salute. The senior color bearer then commands "Order, ARMS." The color guard goes to the order. The national color bearer then steps to the left oblique and retrieves the national colors. When the national color bearer is back in position the organizational color bearer steps to the right oblique and retrieves the organizational colors. When the organizational color bearer is back in position the senior color bearer commands, "Carry, COLORS" and then, using whatever commands necessary, marches the color guard from the auditorium.

4. When performing an indoor ceremony, oddities will be encountered that will necessitate some adjustments by the color guard. Some examples are:
   
a. If performing in a house of worship, covers are not worn and weapons are not carried. Those portions of the ceremony requiring present arms are deleted and the riflemen may be omitted.
   
b. The ceiling may be too low to carry colors; if so, march in at the trail.
   
c. The flag stands you will be posting the colors into may be on different sides of the stage. If this occurs, the recommended sequence is:
   
   (1) Execute the ceremony as discussed earlier.
   
   (2) After the "National Anthem" the colors countermarch and halt facing the new direction. The senior color bearer would command "Post the Colors". The national color bearer and right riflemen step off to the left oblique and move to the flag stand and mark time. The right riflemen positions himself so as to be outboard of the national colors. After the national color bearer and right riflemen have cleared, the organizational color bearer and left riflemen step off in the right oblique and move to the flag stand and mark time. The left riflemen positions himself so as to be outboard of the organizational colors. (See figure 6-20.) Once both colors are in position the senior color bearer commands "Colors, HALT," and "Order, COLORS." The organizational colors is placed in the flag stand, then the national colors is placed in the flag stand. The senior color bearer then commands "Present, ARMS." The riflemen execute present arms and the color bearers execute a hand salute. The senior color bearer then commands
“Order, ARMS;” “Center, FACE;” and “Forward, MARCH.” The riflemen march at trail arms. The color guard moves to the center of the stage and marks time, slowly turning left or right towards the audience. The senior color bearer then commands, “Colors, Halt;” “Shoulder, ARMS;” and then marches the color guard from the auditorium.

![Diagram of flag stands and color guard movement](image)

Figure 6-20.—Posting and Retrieving the Colors Indoors (Flag Stands Separated).

(3) To retire the colors from separated flagpoles, the detail is marched into position facing the colors and halts. The senior color bearer then commands “Present, ARMS.” The color guard riflemen execute present arms and the color bearers execute a hand salute. The senior color bearer then commands “Shoulder, ARMS.” The riflemen return to the shoulder. The national color bearer and right rifleman then step off to the left oblique and move to the flag stand and mark time. The right rifleman positions himself so as to be outboard of the national colors. After the national color bearer and right rifleman have cleared, the organizational color bearer and left rifleman step off in the right oblique and move to the flag stand and mark time. The left rifleman positions himself so as to be outboard of the organizational colors. (See figure 6-10.) Once all are in position the senior color bearer commands “Colors, HALT,” and “Order, ARMS.” The senior color bearer then retrieves the national colors. The organizational color bearer then retrieves the organizational colors. The senior color bearer then commands “Center, FACE,” and “Forward, MARCH.” The color guard, at trail arms, moves to the center of the stage and marks time, slowly turning left or right towards the audience. The senior color bearer then commands “Colors, HALT;” “Carry, COLORS;” and then marches the color guard from the auditorium.

d. The rule of thumb for all unusual situations not covered by this Manual is to perform in a military manner. However, never do something that would embarrass the Unit or the United States Navy.
CHAPTER 7
SQUAD DRILL

7000. GENERAL

1. A squad is a group of 8-12 individuals formed for the purpose of instruction, discipline, control, and order.

2. Members of the squad take positions, move, and execute the manual of arms as stated in this Manual. All individuals execute the movements at the same time. Squads may drill as squads or as part of a platoon or larger formation.

3. Squads are kept intact when practicable. The normal formation for a squad is a single rank (squad in line) or single file (squad in column). (See figure 7-1.) This permits variation in the number of individuals composing the squad. The first formation is always in line. Column formation may be taken from line formation. A squad, not at drill, may be marched in column of twos by forming in two ranks.

4. The squad marches in line for minor changes of position only.

5. When the Squad is Armed with Rifles

   a. The command “Right (Left) Shoulder, ARMS;” “Port, ARMS;” or “Sling, ARMS” is given before commanding the squad to move, except for short distances. When moving short distances the command “Trail, ARMS” may be given or it may be executed automatically.

   b. At the command “Squad, HALT” remain at the position of right shoulder (left shoulder, port or sling) arms until “Order, ARMS” or some other manual command is given.

6. In this Chapter the term “unit leader,” (e.g., “The unit leader then checks the alignment) means the individual drilling the squad. He/she may be the squad leader, or squad member drilling the squad for an inspection or evaluation. If the unit leader is the squad leader, then the number two Cadet (see figure 7-1) executes the movements of the squad leader. The unit leader must maintain proper distance (3 paces) from the squad and remain centered on the squad during all drill movements.

   a. If the squad executes a right step, the unit leader, who is facing the squad, would execute a left step in cadence with the squad to maintain proper position. For a right step the unit leader would execute a left step.

   b. If the squad executes a back step, the unit leader would execute a half step, in cadence with the squad to maintain proper position.

   c. Movements of the unit leader during other squad movements are explained in the paragraph describing the movement.
7001 TO FORM THE SQUAD

1. Members of the squad normally form as indicated in figure 7-1 (e.g. to maintain squad integrity.) However, for parades and ceremonies where appearance is more important, the squads should be sized. To size the squad the tallest member takes position 2 in figure 7-1 with the shortest squad member in position 10. The squad leader, regardless of height, always forms as the squad leader, in position one of figure 7-2.
a. Squad Formed with Unit Integrity.

b. Squad Sized

Figure 7-2. Sizing Squads
2. To form at normal interval, the command is “FALL IN.”

3. The squad forms in line on the left of the squad leader. Each member of the squad, except the individual on the left flank, raises their left arm shoulder high in line with their body. Fingers are extended and joined, palm down thumb extended along the forefinger. Each individual except the squad leader turns their head and looks to the right. To obtain a normal interval, everyone places himself in line so their right shoulder touches the fingertips of the person on their right. As soon as each individual is in line with the person on their right, and the person on their left has obtained normal interval, they assume the position of attention smartly but quietly.

4. To form at close interval, the command is “At Close Interval, FALL IN.”

5. The squad forms in line on the left of the squad leader. Each member of the squad, except the individual on the left flank, places their left hand on their hip, elbow in line with the body. They rest the heel of the palm on the hip with fingers extended and joined and pointing down. Everyone except the squad leader turns their head and looks to the right. To obtain close interval, they place themselves in line so their right arm touches the elbow of the person on their right. As soon as each individual is in line with the person on their right, and the person on their left has obtained close interval, they assume the position of attention smartly but quietly.

6. If the squad is armed, members fall in with weapons at the position of order arms. Weapons are inspected at once unless a report is to be taken. If so they will be inspected immediately following the report with the following commands: “Inspection, ARMS;” “Port, ARMS;” and “Order, ARMS.” (See paragraph 3011.)

7002. TO DISMISS THE SQUAD

1. The squad is dismissed only from a line with individuals at attention.

2. Armed troops are dismissed with the commands “Inspection, ARMS;” and “DISMISSED” (See paragraph 3011).

3. Unarmed troops are dismissed with the command “DISMISSED.”

7003. TO COUNT OFF

1. In line, the command is “Count, OFF.” At the command “OFF,” everyone except the squad leader, turn their heads 90 degrees over the shoulder and look to the right. The squad leaders shout ONE. The person in the file to the left of the squad leaders turns his/her head smartly back to the front and at the same time shouts TWO. After the person to their right has shouted their number, each subsequent person to the left turns his/her head back to the front and at the same time shouts the next higher number. Numbers are counted off in quick time cadence.

2. In column, on the command “From Front to Rear, Count, OFF,” the squad leader smartly turns his/her head to the right 90 degrees over the shoulder and shouts ONE as the head is turned back to the front. Each subsequent rank, having seen the person’s head in front of them return to the front, turns his/her head to the right and shouts the next higher number as the head is turned smartly back to the front. This is carried on in sequence at quick time cadence.

7004. TO ALIGN THE SQUAD

1. The purpose of these movements is to dress the alignment of the squad. They may be executed when the squad is halted at attention in line. The commands are “Dress Right (Left), DRESS” or “At Close Interval, Dress Right (Left), DRESS.” These commands are given only when the squad is at approximately the same interval as the interval at which the dress is commanded.
2. Dress Right Dress

a. On the command "Dress Right, DRESS," everyone except the squad leader, smartly turn their heads to the right, 90 degrees over the shoulder look, and align themselves. At the same time, everyone except the individual on the left flank, provide interval by smartly raising their left arm to shoulder height and in line with their body. Fingers are extended and joined, thumb along the forefinger, palm down. (See figure 7-3.)

b. As the base of the movement, the squad leader keeps his/her head and eyes to the front. All other members of the squad position themselves by short steps until their right shoulders lightly touch the fingertips of the person on their right.

c. The unit leader, on his/her own command of execution "DRESS," faces half left, as in marching, and proceeds by the most direct route to a position on line with and one pace to the right of the individual on the right flank. At this position, the unit leader executes a halt in the oblique facing the rear of the formation, and then executes a right face, facing down the line of the squad. The unit leader aligns the squad by commanding those individuals in advance or rear of the line to move forward or backward until in line. These individuals are designated by name or number. For example: "Jones, FORWARD;" or "Number Three, BACKWARD." Those individuals will move until receiving the command "STEADY." The unit leader may execute a series of short side steps to the right or left in order to identify an individual. However, prior to commanding the identified individual to move, the unit leader will be on line with the rank. After verifying the alignment of the squad, the unit leader faces to the right in marching, marches straight to a point 3 paces beyond the squad, halts, faces to the left, and commands "Ready, FRONT." Immediately after commanding "FRONT," the unit leader marches by the most direct route back to a post 3 paces front and centered on the squad.

d. On the command "Ready, FRONT," all members of the squad who raised their left arm and turned their head to the right, will smartly but quietly lower their arm to their side and at the same time turn their head back to the front, assuming the position of attention.

e. When aligning a squad of well-drilled troops or when there is insufficient time to verify alignment, the unit leader may command "Ready, FRONT" from his/her normal position (3 paces front and centered), without having verified alignment.

Figure 7-3. Dress Right Dress.
3. At Close Interval Dress Right Dress. This movement is executed in the same manner as dress right dress except for the following:

   a. On the command “At Close Interval, Dress Right, DRESS,” those individuals providing interval will do so by placing the heel of their left hand on their hip with the elbow in line with their body. Fingers are extended and joined and pointing down. Members gaining interval will move by short steps until their right arm is touching the left elbow of the individual to their left. (See figure 7-4.)

![Figure 7-4. At Close Interval Dress Right Dress.](image)
4. Dress Left Dress and at Close Interval Dress Left Dress. These movements are similar to dress right dress and at close interval dress right dress except that alignment is made toward the left. The individual on the left flank of the rank is the base of the movement and stands fast. On the command “Dress Left, DRESS” or “At Close Interval, Dress Left, DRESS,” everyone except the individual on the left flank smartly turn their heads to the left, look, and align themselves. At the same time they will smartly raise their left arm or elbow to provide interval (the left arm is used for both dress right and dress left). The unit leader will verify alignment of the squad from its left flank. (See figure 7-5.)

Figure 7-5. Dress Left.

5. To align in column, the command is “COVER.” At this command, members move as necessary to place themselves directly behind the person in front of them, still maintaining a 40-inch distance.

7005. TO OBTAIN CLOSE INTERVAL FROM NORMAL INTERVAL IN LINE

1. The purpose of this movement is to close the interval between individuals of a squad in line to 4 inches. It may be executed when the squad is halted at attention and in line at normal interval. The command is “Close, MARCH.”

2. The squad leader is the base of this movement. On the command of execution “MARCH,” the squad leader stands fast and places his/her left hand on his/her hip, as if dressing at close interval, to provide interval for the individuals to the left. At the same time, all other members of the squad face to the right as in marching, march toward the right flank until approximately 4 inches from the person in front of them, halt, and face to the left. They then execute at close interval dress right dress. After aligning and without command, they will smartly lower their left hands and turn their heads to the front as soon as the individual to their left has touched their elbow with his/her right arm and stopped moving.

3. On his/her command of execution, the unit leader steps to the left in marching. He/she marches parallel to the squad maintaining a distance of 3 paces from the squad. When approximately on the center of the squad at close interval the unit leader halts and faces the squad. He/she then adjusts to the center of the squad by taking small steps left, right, forward or back.
7006. TO OBTAIN NORMAL INTERVAL FROM CLOSE INTERVAL IN LINE

1. The purpose of this movement is to extend the interval between individuals of a squad in line to one arm length. It may be executed when the squad is halted at attention and in line at close interval. The command is “Extend, MARCH.”

2. The squad leader is the base of this movement. On the command of execution “MARCH,” the squad leader stands fast and raises his/her left arm to shoulder height to provide interval for the person on the left. At the same time, all other members of the squad face to the left as in marching, march toward the left flank until they have opened approximately a 30-inch distance from the person behind them, halt, and face to the right. They then execute dress right dress. After aligning and without command, they will smartly, and quietly, lower their left arms and turn their heads to the front as soon as the individual to their left has touched their finger tips with his/her right shoulder and has stopped moving.

3. On his/her command of execution, the unit leader steps to the right in marching. He/she marches parallel to the squad maintaining a distance of 3 paces from the squad. When approximately on the center of the squad at normal interval the unit leader halts and faces the squad. He/she then adjusts to the center of the squad by taking small steps left, right, forward or back.

7007. TO MARCH IN THE OBLIQUE

1. The purpose of this movement is to shift the line of march to the right or left and then resume marching in the original direction. It may be executed from any formation that is marching at quick time cadence. The command is “Right (Left) Oblique, MARCH.” The word oblique is pronounced to rhyme with strike. The command of execution is given as the foot in the direction of the turn strikes the deck. The command to resume the original direction of march is “Forward, MARCH.” The command of execution is given as the foot toward the original front strikes the deck.

2. To teach the squad to march to the oblique, the unit leader aligns the unit and has members face half right (left). The unit leader then explains that these positions are maintained when marching to the oblique. This is achieved by individuals keeping their shoulders parallel to the persons in front and/or adjacent to them. The squad leader is the base of the movement, and must maintain a steady line of march keeping his/her shoulders blocked perpendicular to the direction of march.

3. At the command “Right Oblique, MARCH” the command of execution is given as the right foot strikes the deck. Everyone then takes one more 30-inch step to the front with the left foot and pivots 45 degrees to the right on the ball of the left foot. Stepping out of the pivot with a 30-inch step, the entire squad marches to the right oblique until given another command. (See figure 7-6.) For the squad to resume marching in the original direction, the command is “Forward, MARCH” in this case the command of execution will be given as the left foot strikes the deck. Everyone then takes one more step in the oblique direction; pivots back to the original front and continue to march. To march to the left oblique, substitute left for right and right for left in the above sequence.
4. To halt the squad facing in the original direction of march the command is "Squad, HALT." The command of execution "HALT" is given on the left foot when marching to the right oblique and on the right foot when marching to the left oblique. At the command "HALT," everyone takes one more step in the oblique direction, pivots to the original front on the toe of the right (left) foot, and places the left (right) foot beside the other at the position of attention.

5. To temporarily halt the squad in the oblique direction, in order to correct errors, the command is "In Place, HALT." The command of execution "HALT" may be given as either foot strikes the deck. At the command of execution "HALT," the squad halts in two counts as in quick time and remains facing in the oblique direction. The only command that can be given after halting in place is "Resume, MARCH." At that command, the movement continues marching in the oblique direction.

6. When given half step or mark time while marching in the oblique, the only commands that may be given are "Resume, MARCH" to continue marching with a 30-inch step in the oblique; or "In Place, HALT" to halt in the oblique in order to correct errors.

7008. TO MARCH TO THE REAR

1. The purpose of this movement is to march the squad to the rear for a short distance. It may be executed when halted or marching forward at quick time or double time. The command is "To the Rear, MARCH." The command of execution will be given as the right foot strikes the deck.

2. When halted, on the command of execution "MARCH," everyone takes one 15-inch step to the front with the left foot and then pivots 180 degrees toward the right on the balls of both feet. Stepping out of the pivot with a 30-inch step, the entire squad marches to the rear. For the squad to resume marching in the original direction the command "To the Rear, MARCH" is given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

3. When marching at quick time, on the command of execution "MARCH," everyone takes one 15 inch step to the front with the left foot and then pivots 180 degrees toward the right on the balls of both feet. Stepping out of the pivot with a 30-inch step, the entire squad marches to the rear. For the squad to resume marching in the original direction, the command "To the Rear, MARCH" is
given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

4. When marching at double-time, on the command of execution “MARCH,” everyone takes two more 36-inch steps to the front and then four, 6-inch vertical steps in place at double time cadence. On the first and third steps in place, everyone pivots 180 degrees to the right, 90 degrees on the first step and 90 degrees on the third. After the fourth step in place, and for the fifth step, they step off with a 36-inch step in the new direction. For the squad to resume marching in the original direction, the command “To the Rear, MARCH” is given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

7009. TO MARCH TO THE FLANK

1. The purpose of this movement is to march the squad to the right or left flank for a short distance. It may be executed from any formation that is marching at quick time or double time cadence. The command is “By the Right (Left) Flank, MARCH.” The command of execution is given as the foot in the direction of the turn strikes the deck.

2. To march to the right flank, when marching at quick time, the command is “By the Right Flank, MARCH.” On the command of execution “MARCH,” everyone takes one more 30-inch step to the front with the left foot and then pivots 90 degrees to the right on the ball of the left foot. Stepping out of the pivot with a 30-inch step, the entire squad marches in line to the right flank. The unit leader executes the flanking movement with the squad maintaining his/her distance from the squad. For the squad to resume marching in the original direction, the command is “By the Left Flank, MARCH.” To march to the left flank, substitute left for right and right for left in the above sequence. No other command may be given when marching to the flank until the unit has resumed marching to the original front.

3. When marching at double time, on the command of execution “MARCH,” everyone takes two more 36-inch steps to the front and then two, 6-inch vertical steps in place at double time cadence. While stepping in place, everyone turns 90 degrees toward the direction commanded and then steps off with a 36-inch step in the new direction. No other command may be given when marching to the flank until the unit has resumed marching to the original front.

7010. TO CHANGE DIRECTION OF A COLUMN

1. The purpose of this movement is to change the direction of march of a column. It may be executed when the squad is halted or marching in column. The command is “Column Right (Column Left, Column Half Right, or Column Half Left), MARCH.” The squad leader establishes the pivot point for the movement.

2. When marching, the commands of execution are given on the foot in the direction of the turn. On the command of execution “MARCH,” the squad leader takes one more 30-inch step to the front and then pivots 90 degrees to the right (left) on the ball of the left (right) foot. He/she then takes a 30-inch step in the new direction. The remaining members of the squad continue to march to the point where the squad leader pivoted. They would then pivot 90 degrees in the new direction of march.

3. When halted, at the command of execution “MARCH,” the squad leader faces to the right (left) as in marching by turning to the right (left) on his right toe and takes one 30-inch step in the new direction with the left foot. The remaining members of the squad step off to the front as in forward march. The remainder of the movement is executed the same as in marching.

4. Column half right (left) is executed as described above except that the pivot is 45 degrees to the right (left).

5. During column movements, the unit leader executes the movement with the squad, maintaining proper distance from the squad.
6. For slight changes of direction, the command is "INCLINE TO THE RIGHT (LEFT)." At that command, the squad leader changes direction slightly as commanded. This is not a precision movement and is executed only while marching.
8000. GENERAL

1. The first phase of drill has been explained in earlier chapters of this Manual. This Chapter discusses the next phase, platoon drill. In platoon drill, the squad is merged with other squads into a platoon.

2. A platoon consists of a platoon headquarters and two or more squads. Platoon headquarters consists at a minimum of a platoon commander, a mustering petty officer and a platoon guide. One or more assistants may be designated.

3. Squads in a platoon are numbered from right to left in column (when facing the front of the column) and from front to rear in line.

4. The platoon forms in two or more ranks with a 40-inch distance between ranks. Movements in this Section are described for columns of threes or fours and may be executed by either formation.

5. The platoon changes interval while in line and counts off in the same manner as the squad. Squad leaders are the base for these movements. The guide moves to the right when interval is taken to the left, and does not count off.

6. In platoon drill, if all members of the platoon are to execute a movement simultaneously, the movement is executed on the command of the platoon commander. In this case, squad leaders do not repeat or give any commands. When squads of the platoon are to execute a movement in successive order, such as forming column of twos (files) and reforming into column (of threes, etc.), squad leaders give appropriate supplemental commands for the movement of their squads.

7. Unless specified for the platoon to be at close interval, all changes in formation should be executed with normal interval and distance between files and ranks.

8. The unit leader will march to the left and parallel to the platoon, from a position where he/she can best control the unit.

9. All commands given by the unit leader while the platoon is halted will be 6 paces in front of the unit and centered on the element.

10. In confined arenas Unit Leaders are permitted to march three paces centered on the left side of the unit where they can best control the unit.
8001. FORMATIONS

1. Column and line are the two formations for a platoon. (See figures 8-1 and 8-2.)

   ![Figure 8-1. Platoon in Line at Normal Interval.](image1)

   ![Figure 8-2. Platoon in Column at Normal Interval.](image2)

   **NOTE:**
   - Normal Interval.....Arm’s Length
   - Close Interval.....See Paragraph 100121
   - Distance..............40 Inches

2. The platoon normally forms in line with the squad leaders on the right of their squads and the guide on the right of the first squad leader. (See figure 8-1.) The platoon marches in line for short distances only. The platoon is normally marched in column with the squad leaders in front of their squads and the guide in front of the third (right) squad leader. The unit leader takes a position in front of the 1st squad during parade and ceremony. (See figure 8-2.)

DM-111
8002. POSTS OF INDIVIDUALS

1. In line, the platoon commander’s post is 6 paces in front of the center of the front rank of the platoon. (See figure 8-1.) In column, the platoon commander marches at the head of the left file of the platoon (see figure 8-2), unless drilling the platoon, in which case he/she would maintain a position 6 paces from the platoon.

2. When the platoon commander is present, the mustering petty officer takes post to the left of the left member of the rear rank when the platoon is in line. When in column, the mustering petty officer follows the last member of the right file (squad). When the platoon commander is not present, the mustering petty officer takes the platoon commander’s post and drills the platoon in the manner prescribed for the platoon commander.

3. The platoon guide takes post as stated in paragraph 8003.

4. Extra members may fall in on the left when the platoon is in line and in the rear when in column. If the squads are evenly filled, the first extra member falls in with the first squad, the second with the third (fourth) squad and then remaining squads. The mustering petty officer will reposition when necessary so as to remain the last person in the last rank.

5. In this Chapter the term “platoon commander,” e.g., the platoon commander then checks the alignment, means the individual drilling the platoon. He/she may be the platoon leader, mustering petty officer, or platoon member drilling the platoon for an inspection or evaluation. Except when marching at the head of a platoon column, the platoon commander must maintain proper distance (6 paces) from the platoon and remain centered on the platoon during all drill movements.

   a. If the platoon were executing a right step, the platoon commander, who is facing the platoon, would execute a left step in cadence with the platoon in order to maintain proper position. For a left step the platoon commander would execute a right step.

   b. If the platoon were executing a back step, the platoon commander would execute a half step, in cadence with the platoon in order to maintain proper position.

   c. Movements of the platoon commander during other platoon movements are explained in the paragraph describing the movement.

8003. RULES FOR THE GUIDE

1. Unless otherwise directed, guide is right and the platoon guide takes post on the right. In line, the guide is posted to the right of the squad leader of the first squad. In column, the guide is posted in front of the squad leader of the third or right squad.

2. In column, when it is desired to guide left or center, the command “GUIDE LEFT” is given. At this command, the guide and the platoon commander exchange positions. The guide crosses between the platoon commander and the platoon. To return the guide to normal position, “GUIDE RIGHT” is commanded. The guide and platoon commander return to their normal positions with the guide again passing between the platoon commander and the platoon. This movement may be made at a halt or while marching. The base squad or file is the one behind the guide.

3. The guide does not change position at the command “Dress Left, DRESS.”

4. When a platoon in line is given the command “Right, FACE,” the platoon guide executes right face with the platoon. The guide then steps to the right in marching, moves to a position in front of the right squad leader, halts, and executes left face. If a platoon in line is given “Left, FACE,” the guide executes left face with the platoon but does not change position within the platoon.
5. When a platoon in column is given the command “Column of Files from the Left,” the guide takes position in front of the left squad leader so as to remain at the head of the column.

6. When a platoon in column is given the command “Column of Twos from the Left,” the guide takes position in front of the second squad so as to remain at the head of the right file of the column. These movements are executed by facing left as in marching, moving to the appropriate position, halting, and facing right.

7. When reforming in a column of threes or fours from a column of files or twos, the guide takes post at his normal position when the movement is completed.

8. The guide sets the direction and cadence of the march. The leading member of each file is responsible for interval.

9. When a platoon is marching in column and the command “By the Right (Left) Flank, MARCH” or “To the Rear, MARCH” is given, the guide executes the movement with the platoon but does not change relative position except during specific movements of company drill. (See paragraph 10011.2 in the Marine Corps Drill and Ceremonies Manual--MCO P 5060.20 for an exception.)

10. The guide does not count off.

8004. TO FORM THE PLATOON

1. The platoon forms in line at normal interval and distance between files and ranks (see figure 8-1) on the command “FALL IN.” To form at close interval, the command is “At Close Interval, FALL IN,” in which case the platoon forms in line with normal distance between ranks, but with close interval between files. The mustering petty officer or platoon commander forms the platoon as described below.

2. Forming the Platoon by the Mustering petty officer

   a. The mustering petty officer takes post 3 paces in front of the point where the center of the platoon will be, faces that point, draws sword if so armed, and commands either “FALL IN” or “At Close Interval, FALL IN.” At this command, the guide takes post so that the first rank, when aligned on the guide will be centered on and 3 paces from the mustering petty officer. The squad leader of the first squad falls in to the left of the guide and aligns at normal or close interval. Other squad leaders fall in directly behind the squad leader of the first squad with 40 inches distance between them. The members of the squads fall in and align on their squad leaders at normal or close interval as prescribed in squad drill, except that exact interval is measured only by the front rank. Individuals in the rear ranks gain their interval by covering the corresponding member of the rank in front of them. All personnel fall in at attention and, if armed with the rifle, at the position of order arms.

   b. When a report is appropriate, after all personnel are formed, the mustering petty officer commands, “REPORT.” Remaining in position (at order arms if armed with the rifle), the squad leaders, in sequence from front to rear, salute and report, “All present” or “(Rank and Name) absent.” If the cadets are armed, the mustering petty officer commands, “Inspection, ARMS;” and “Order, ARMS” paragraph 3011). The mustering petty officer then executes about face.

   NOTE: If the platoon cannot be formed in regularly organized squads prior to forming the platoon, the mustering petty officer commands “Inspection, ARMS;” “Right Shoulder, ARMS;” and calls the roll. Each cadet answers “here,” and goes to order arms as their name is called. The mustering petty officer then organizes the platoon into squads and faces the front. (The manual of arms is omitted for personnel not armed with rifles.)

   c. To receive the platoon, the platoon commander takes post 3 paces in front of the mustering petty officer (sword in scabbard if so armed), the mustering petty officer salutes and reports, “Sir (Ma’am), all present or accounted for” or “Sir (Ma’am), (number) absent.” The platoon commander returns the salute and may discuss absentees and issue necessary instructions to the mustering petty officer. The platoon commander then commands the mustering petty officer, “TAKE YOUR POST.” The mustering petty officer marches by the most direct route to a
post on the left of the rear rank. The platoon commander then draws sword, if so
armed.

d. If the platoon commander does not receive the platoon, the mustering petty
officer takes 3 paces forward, faces about and assumes the post and duties of the
platoon commander.

3. **Forming the Platoon by the Platoon Commander**

   a. When appropriate, the platoon may be formed by the platoon commander rather
      than the mustering petty officer. The procedures are the same except that the
      platoon commander takes post 6 paces in front of the point where the center of
      the platoon will be, faces that point, draws sword and commands “**FALL IN**” or “**At
      Close Interval, FALL IN.**”

   b. The platoon forms on the platoon commander, the mustering petty officer
      falling in on the left of the rear rank with sword drawn, if so armed. The
      platoon commander then receives the report from the squad leaders and causes the
      platoon to execute inspection arms if the troops are armed.

**8005. TO DISMISS THE PLATOON**

1. The platoon is dismissed only from in line while at attention.

2. Armed troops are dismissed with the commands “**Inspection, ARMS;**” and
   “**DISMISSED.**”

3. Unarmed troops are dismissed with the command “**DISMISSED.**”

4. The mustering petty officer usually dismisses the platoon.

**8006. COUNT OFF**

1. The purpose of this movement is to designate the relative position in ranks of
   each member of the platoon. It may be executed when the platoon is halted at
   attention in line or column. When in line the command is “**Count, OFF;**” when in
   column the command is “**From Front to Rear, Count, OFF.**”

2. In line, on the command “**Count, OFF,**” everyone except the guide and squad
   leaders turn their heads 90 degrees to the right and look to the right. The squad
   leaders shout ONE. The persons in the file to the left of the squad leaders turn
   their heads smartly back to the front and at the same time shout TWO. After the
   file to their right has shouted its number, each subsequent file to the left turn
   their heads back to the front and shouts the next higher number. Numbers are
   counted off in quick time cadence.

3. In column, on the command “**From Front to Rear, Count, OFF,**” the squad leaders
   smartly turn their heads to the right and shout ONE as they return their heads
   back to the front. Each subsequent rank, having seen the heads in front of them
   return to the front, turn their heads to the right and shout the next higher
   number as they bring their heads smartly back to the front. This is carried on in
   sequence at quick time cadence. The guide does not turn his/her head nor count
   off. The platoon commander gives the command from a position 6 paces in front and
   centered on the squad leaders.

**8007. TO FORM COLUMN FROM LINE.** The purpose of this movement is to change the
formation from line to column. It may be executed only when halted at normal
interval, at attention, and at order arms if armed with rifles. The command is
“**Right, FACE.**” On the command of execution “**FACE,**” all members of the platoon
face to the right, thereby forming column. The guide moves to his/her position in
front of the right squad leader. The platoon commander may then command any
halted movement from his/her current position, (e.g., right/left shoulder, port, sling,
arms; facing movements, right/left step; etc.) unless otherwise indicated
in this Chapter. If the platoon is to march as part of a larger formation the
platoon commander takes post in front of the left file and the guide in front of
the right file. (See figure 8-2.) From this position the platoon commander would
command "Forward (Column Right {Left}), MARCH" to cause the platoon to march in column.

NOTE: Since the platoon becomes inverted if faced to the left, this should only be done for short adjusting movements. To properly form column facing to the left, the platoon should first form column by facing to the right, then execute successive column movements until the column is faced in the desired direction.

8008. TO FORM LINE FROM COLUMN. The purpose of this movement is to change the formation from a column back to a line. It may be executed when halted at attention and at order arms if armed with rifles. The command is "Left, FACE." (NOTE: If the platoon is in column at close interval they must be extended to normal interval, paragraph 8013, prior to executing left face. Otherwise there will not be 40 inches distance between ranks.) At the command of execution "FACE," all members of the platoon face to the left, the platoon commander, if necessary, moves by the most direct route to a post 6 paces front and center of the platoon, and the platoon guide takes post on the right of the front rank.

NOTE: When in column, if the platoon is faced to the right it becomes inverted. This should only be done for short adjusting movements.

8009. TO ALIGN THE PLATOON

1. The purpose of these movements is to dress the alignment of the platoon. They may be executed when the platoon is halted at attention in line or column. When in line, the commands are "Dress Right (Left), DRESS" or "At Close Interval, Dress Right (Left), DRESS." These commands are given only when the platoon is at approximately the same interval as the interval at which the dress is commanded. When in column, halted or marching, the command to dress alignment is "COVER."

2. Dress Right Dress

a. On the command "Dress Right, DRESS," everyone except those individuals on the right flank, smartly turn their heads to the right, look, and align themselves. At the same time, everyone except those individuals on the left flank, provide interval by smartly raising their extended left arm to shoulder height and in line with their body. Fingers are extended and joined, thumb along the forefinger, palm down.

b. As the base of the movement, the guide stands fast and remains looking to the front. The first squad leader looks to the right and aligns on the guide. The other squad leaders cover the first squad leader and look to the front, ensuring they have a 40-inch distance. All other members position themselves by short steps until their right shoulders touch or come into alignment with the fingertips of the person on their right.

NOTE: Squad members should not raise or lower their arms to touch the top of the member next to them if the member next to them is taller or shorter.

c. The platoon commander, on his/her own command of execution "DRESS," faces half left, as in marching, and proceeds by the most direct route to a position on line with the front rank and 1 pace to the guide's right (or first squad leader if there is no guide). (See figure 8-3a.) At this position, the platoon commander executes a halt while facing rear, and then executes a right face, facing down the line of the first rank. (See figure 8-3b.) The platoon commander aligns the front rank by commanding those individuals in advance or rear of the line to move forward or backward until in line. These individuals are designated by name or number. For example: "Jones, FORWARD;" or "Number Three, BACKWARDS." Those commanded to move will move the designated number of steps or will continue to move (taking small steps) until receiving the command "STEADY." The commander may execute a series of short side steps to the right or left in order to identify an individual. However, prior to commanding the identified individual to move, the commander will be on line with the rank. After verifying the alignment of the first rank, the platoon commander faces to the left as in marching, and moves to a position on line with the next rank. The 1 pace interval from the guide is maintained (this results in a 2 pace interval from the second and subsequent squad leaders). The commander halts on line with each succeeding rank, executes right face, and aligns the rank. (See figures 8-3c and d.) After verifying the
alignment of the last rank, the platoon commander faces to the right in marching, marches straight to a point 3 paces beyond the front rank, maintaining the 1 pace interval to the guide’s right, halts, (see figure 8-3e) faces to the left, (see figure 8-3f) and commands “Ready, FRONT” and “COVER.” Immediately after commanding, “COVER,” the platoon commander marches by the most direct route back to a post 6 paces front and centered on the platoon.

d. On the command “Ready, FRONT,” all members of the platoon who raised their left arm and turned their head to the right, will smartly but quietly lower their arm to their side and at the same time turn their head back to the front, assuming the position of attention. On the command “COVER,” all members of the second and subsequent ranks will cover on the individual in front of them.

e. When aligning a platoon of well-drilled troops or when there is insufficient time to verify alignment, the platoon commander may command “Ready, FRONT” and “COVER” from his/her normal position (6 paces front and centered), without having verified alignment.

![Figure 8-3: Movements of the Platoon Commander when Aligning the Platoon.](image)

3. At Close Interval Dress Right Dress. This movement is executed in the same manner as dress right dress except for the following: On the command “At Close Interval, Dress Right, DRESS,” those individuals providing interval will do so by placing the heel of their left hand on their hip with the elbow in line with their body. Fingers are extended and joined and pointing down. Members gaining interval will move by short steps until their right arm is touching the left elbow of the individual to their right.

4. Dress Left Dress and at Close Interval Dress Left Dress. These movements are similar to dress right dress and at close interval dress right dress except that alignment is made toward the left. The last individual in the first rank is the base of the movement and stands fast. On the command “Dress Left, DRESS” or “At Close Interval, Dress Left, DRESS,” everyone except those on the left flank smartly turn their heads to the left, look, and align themselves. At the same time they will smartly raise their left arm or elbow to provide interval (the left arm is used for both dress right and dress left). The last individuals in the second and subsequent ranks will cover the person in front of them and ensure that they have a 40-inch distance. The platoon commander will verify alignment of the platoon from its left flank.

5. Aligning in Column
a. The base squad for maintaining alignment while halted or marching in column is normally the third (right) squad. However, when executing a column left, column half left or eyes left alignment is to the first (left) squad. While marching, alignment is maintained by constantly glancing out of the corner of the right (left) eye, without turning the head.

b. Halted. When halted in column, (except for parades and ceremonies) the platoon is aligned by the command “COVER.” At the command, the base squad leader obtains a 40-inch distance from the guide and covers on him/her. Other squad leaders obtain proper interval from the base squad leader and align toward the base by glancing out of the corner of their right (left) eye without turning their heads. Other members of the base squad obtain a 40-inch distance and covers on the person in front of them. At the same time, the remaining members of the platoon align on the base squad, by glancing out of the corner of their right (left) eye without turning the head and covers on the person in front of them. Only small adjusting steps are taken by platoon members to gain cover and alignment.

c. Marching. While marching, cover and alignment are constantly maintained by glancing out of the corner of the right (left) eye, without turning the head, to align on the base squad. The command of “COVER” is only given if required.

8010. TO OBTAIN CLOSE INTERVAL FROM NORMAL INTERVAL IN LINE

1. The purpose of this movement is to close the interval between files of a platoon in line to 4 inches. It may be executed when the platoon is halted at attention and in line at normal interval. The command is “Close, MARCH.”

2. The squad leaders are the base of this movement. On the command of execution “MARCH,” the squad leaders stand fast and place their left hand on their hip to provide interval for the individuals to their left. At the same time, all other members of the platoon, except for the guide, face to the right as in marching, march toward the right flank until approximately 4 inches from the person in front of them, halt, and face to the left. They then execute at close interval dress right dress. After aligning and without command, they will smartly lower their left hands and turn their heads to the front as soon as the individual to their left has touched their elbow with his/her right arm and stopped moving. Cover is then obtained without command.

3. On the command of execution, the guide will step to the left as in marching and close to 4 inches on the first squad leader. After halting and facing to the right, the guide will execute a "close interval dress left dress." When aligned and at the proper interval the guide will return to the position of attention.

4. The platoon commander on his/her own command of execution “MARCH” will step to the left in marching. He/she marches parallel to the platoon maintaining a distance of 6 paces from the platoon. When approximately on the center of the platoon at close interval the platoon commander halts and faces the platoon. The platoon commander then adjusts to the center of the platoon by taking small steps left, right, forward or back.

8011. TO OBTAIN NORMAL INTERVAL FROM CLOSE INTERVAL IN LINE

1. The purpose of this movement is to extend the interval between files of a platoon in line to one arm length. It may be executed when the platoon is halted at attention and in line at close interval. The command is “Extend, MARCH.”

2. The squad leaders are the base of this movement. On the command of execution “MARCH,” the squad leaders stand fast and raise their left arms to shoulder height to provide interval for the persons on their left. At the same time, all other members of the platoon, except for the guide, face to the left as in marching, march toward the left flank until they have opened approximately a 30-inch distance from the person behind them, halt, and face to the right. They then execute dress right dress. After aligning and without command, they will smartly lower their left arms and turn their heads to the front as soon as the individual to their left has touched their finger tips with his/her right shoulder and stopped moving. Cover is then obtained without command.
3. On the command of execution, the guide will take one step to the right as in marching, halt and face to the left. The guide will then execute dress left dress. When aligned on the first squad leader and at the proper interval the guide will return to the position of attention.

4. The platoon commander on his/her own command of execution “MARCH” will step to the right in marching. He/she marches parallel to the platoon maintaining a distance of 6 paces from the platoon. When approximately on the center of the platoon at normal interval the platoon commander halts and faces the platoon. The platoon commander then adjusts to the center of the platoon by taking small steps left, right, forward or back.

8012. TO OBTAIN CLOSE INTERVAL IN COLUMN

1. The purpose of this movement is to close the interval between files in a column to 4 inches. It may be executed when halted or marching at normal interval in column. The command is “Close, MARCH.”

2. When halted and the guide is right, on the command “MARCH,” members of the base (right) squad will stand fast. Members of the squad next to the base squad will execute two right steps. The next squad to the left will execute four right steps. If there are four squads in the platoon, the first (left) squad will execute six right steps. While side stepping, cover and alignment will be maintained. Steps may be adjusted slightly so that a 4-inch interval is obtained. Upon completion of the designated number of steps, members of the squad will halt and resume the position of attention.

3. When marching and the guide is right, the command of execution “MARCH” is given as the right foot strikes the deck. At this command:

   a. The base (right) squad takes one more 30-inch step with the left foot and then begins to half step. (See figure 8-4.)

   b. The squad to the left of the base squad takes one more 30-inch step to the front with the left foot; execute right oblique toward the base squad for one step and then steps 30 inches back to the original front. The squad then begins to half step.

   c. The next squad to the left takes one more 30-inch step to the front and then executes right oblique toward the base squad for three steps and steps 30 inches back to the original front. The squad then begins to half step.

   d. If there are four squads in the platoon, the first (left) squad would execute the same movements as above except the members would take five steps in the oblique.

   e. Steps in the oblique may be adjusted slightly so that a 4-inch interval is obtained.

   f. At the command “Forward, MARCH” all squads resume taking 30-inch steps.

4. If the guide has been shifted to the left or center, the base squad will become the squad behind the guide. The commands of execution will be given as the left foot strikes the deck, if guide is left, or on either foot if guide is center. Side steps or oblique movements will be made toward the base squad as appropriate.

5. The platoon commander, on his/her command “MARCH,” oblique the number of steps necessary to remain parallel to the platoon and picks up the half step. The platoon commander picks up a full 30-inch step on his/her command of “Forward, MARCH.”
8013. **TO EXTEND TO NORMAL INTERVAL IN COLUMN**

1. The purpose of this movement is to extend the interval between files in a column from close to normal interval. It may be executed when halted or marching in column at close interval. The command is "**Extend, MARCH.**"

2. When halted and the guide is right, on the command of execution "**MARCH,**" members of the base (right) squad stand fast. Members of the squad next to the base squad will execute two left steps. The next squad to the left will execute four left steps. If there are four squads in the platoon, the first (left) squad will execute six left steps. While side stepping, cover and alignment will be maintained. Steps may be adjusted slightly so that one arms interval is obtained between squad leaders. Upon completion of the designated number of steps, members of the squad will halt and resume the position of attention.

3. When marching and the guide is right, the command of execution "**MARCH**" is given as the left foot strikes the deck. At this command:

   a. The base (right) squad takes one more 30-inch step with the right foot and then begins to half step.

   b. The squad next to the base squad takes one more 30-inch step to the front with the right foot, executes left oblique away from the base squad for one step and steps 30 inches back to the original front. The squad then begins to half step.

   c. The next squad to the left takes one more 30-inch step to the front and then executes left oblique away from the base squad for three steps and steps 30 inches back to the original front. The squad then begins to half step.

   d. If there are four squads in the platoon, the first (left) squad would execute the same movements as above except the members would take five steps in the oblique.

**Figure 8-4.--Close March (While Marching), Right Squad Base.**

DM-119
e. Steps in the oblique may be adjusted slightly so that a one-arm interval is obtained between squad leaders.

f. At the command "Forward, MARCH," all squads resume taking 30-inch steps.

4. If the guide has been shifted to the left or center, the base squad will become the squad behind the guide. Side steps or oblique movements will then be made away from the base squad as appropriate.

5. The platoon commander, on his/her command "MARCH," oblique the number of steps necessary to remain 6 paces from the platoon and picks up the half step. The platoon commander picks up a full 30-inch step on his/her command of "Forward, MARCH."

8014. TO OPEN RANKS

1. The purpose of this movement is to increase the distance between ranks to 70 inches in order to accommodate the movements of an inspection party or to stack arms. It may be executed when halted in line at attention, and at normal or close interval. If armed, rifles will be at order arms. The commands are "(At Close Interval), Open Ranks," "MARCH;" "Ready, FRONT;" and "COVER."

2. When at normal interval, on the command of execution "MARCH," the front rank takes two 30-inch steps forward, halts, and executes dress right dress. The second rank takes one 30-inch step forward, halts, and executes dress right dress. The third rank stands fast and executes dress right. If there is a fourth rank, it takes two 15-inch back steps, halts, and executes dress right. When at close interval, all ranks will execute at close interval, dress right dress in place of dress right dress.

3. The platoon commander verifies alignment as for dress right dress, except that he/she will verify the 70-inch distance between ranks by taking two 30 inch steps and one 10-inch step when moving from one rank to the next. After verifying the alignment of the rear rank, he/she faces to the right in marching, marches 3 paces beyond the front rank, and 1 pace to the guide's right, halts, faces to the left, and commands "Ready, FRONT" and "COVER." The platoon responds to these commands in the same manner as when they are given following dress right dress.

   a. If the platoon is about to be inspected, the platoon commander, after the command "COVER," will take one step to the front so that he/she is 3 paces directly in front of the guide, and then execute a right face. From this position the platoon commander reports the platoon to the inspecting officer. This is standard for all NJROTC competitions.

8015. TO CLOSE RANKS

1. The purpose of this movement is to decrease the distance between opened ranks to a normal distance (40 inches). It may only be given when the platoon is at attention at open ranks. The command is "Close Ranks, MARCH." It should be given immediately after the reason for opening ranks is accomplished, and before the platoon is given further drill movements or dismissed.

2. On the command of execution "MARCH," the front rank stands fast while the second rank takes one 30-inch step to the front and halts. At the same time, the third rank takes two 30-inch steps to the front and if there is a fourth squad, it takes 3 steps and halts. Each individual maintains cover and alignment while moving. No dressing movements are executed.

   a. The platoon commander may give the command to close ranks when:

      1. The reason for open ranks was to increase the distance between ranks to 70 inches for NJROTC basic drill competitions only, then the platoon commander gives the command to close ranks at the same position from which he/she commanded ready front.

      2. After the platoon is inspected, the platoon commander returns to a position 3 paces in front of the guide and halts facing to the front. It is from this position that the inspecting officer would critique the inspection. The
platoon commander would exchange salutes with the inspection officer and after that officer has departed, the platoon commander would face to the left and then command "Close Ranks, MARCH." The platoon commander, on the command "MARCH," then moves to his/her position 6 paces and centered on the platoon. This is standard for all NJROTC competitions.

8016. TO FORM FOR PHYSICAL DRILL

1. The purpose of the movement is to form the platoon for physical exercise. It may be executed when the platoon is halted at attention and in a column of threes or fours at normal interval. If armed with rifles, they will be at order arms. The sequence of commands is: “From Front to Rear, Count, OFF;” “Take Interval to the Left, MARCH;” “Arms, DOWN;” and “Even Numbers, To the Right, MOVE.” To reform to a column the commands are “Assemble, MARCH” and “Cover.”

2. The command “From Front to Rear, Count OFF;” is given by the platoon commander in order to designate odd and even ranks. It is executed as prescribed for counting off in column.

3. The next command is “Take Interval to the Left, MARCH.” With the platoon in column, the extended interval is set by designating the number of steps the members of each squad take to the left.

   a. On the command of execution “MARCH,” all members of the squad on the right flank (third squad if it is a three squad platoon, fourth squad if it is a four squad platoon) and the guide, will cover in file, stand fast and each member extends both arms sideways at shoulder height, palms down with fingers extended and joined. If armed with rifles each member will grasp the upper hand guard of the rifle near the stacking swivel, keeping the trigger guard facing forward and raise it to shoulder height. This squad forms the base of the movement.

   b. At the same time, the members of each squad to the left of the base squad will face to the left as in marching and take two, four, or six (if it is a four squad platoon) 30-inch steps respectively. Upon completing their designated number of steps, they will halt, execute a right face, will cover in file, stand fast, and extend their arms to the side at shoulder height in the same manner as the right file. If armed with rifles the rifles are carried at trail arms during movement and then raised in the same manner as the right file.

   c. At the command “Arms, DOWN,” the arms are lowered smartly to the side and if armed with rifles the position of order arms is assumed.

4. On the command “Even Numbers to the Right, MOVE,” all even numbered individuals and the guide will move to their right to the middle of the interval between files. This will be done by swinging the right leg to the right and springing off the left foot. The movement should be completed in one hop. If armed with rifles the weapon is brought to trail arms and held against the right leg during movement. Once in position, even numbered members cover and assume the position of attention. Odd numbered members do not move. From this position physical drill may be executed without the danger of collisions between individuals.

5. Upon completion of physical drill, the command “Assemble, MARCH” is given. On the command of execution, the odd numbered members of the base squad stand fast. Even numbered members of the base squad step left in marching and double time to their positions covered on the odd numbered members of the base squad, and the guide will return to a position in front of the base squad leader. At the same time, all other members will face right as in marching and, at a double time cadence, reassemble in column at normal interval and stand fast. The platoon commander would then give the command of “COVER” in order for the platoon to quickly pick up its alignment and cover.

6. The platoon commander, once the platoon is in column, gives all commands from a position 6 paces in front of, centered on and facing the column. He/she makes those movements necessary to maintain this position during the execution of the movement(s).

8017. TO CHANGE THE DIRECTION OF A COLUMN

DM-121
1. The purpose of this movement is to change the direction of march of a column. It may be executed when the platoon is halted or marching in column at normal or close interval. The command is "Column Right (Column Left, Column Half Right or Column Half Left), MARCH." The base element during the turn is the squad on the flank in the direction of the turn. The leading member of the base squad, excluding the platoon commander and guide, establishes the pivot for the movement.

2. When marching, the commands of execution are given on the foot in the direction of the turn. On the command of execution "MARCH," the leading member of the base squad takes one more 30-inch step to the front and then pivots 90 degrees to the right (left) on the ball of the left (right) foot. He/she then takes one 30-inch step in the new direction before beginning to half step. At the same time other members of the leading rank execute a right (left) oblique. They step in this direction until they are on line with the new line of march (normally two, four and six steps respectively) and then execute a second right (left) oblique. The original interval is maintained while in the oblique. Stepping out of the second oblique with a 30-inch step, they begin to half step as soon as they are aligned on the base squad leader. When all members of the same rank have come abreast, everyone in that rank resumes a full step. Ranks in rear of the leading rank execute the pivot movements on the same points and in the same way as the leading rank. (See figure 8-5.)

3. When halted, at the command of execution "MARCH," the leading member of the base squad steps to the right (left) as in marching by turning to the right (left) on the ball of his/her right foot and takes one 30-inch step with his/her left foot in the new direction. Then he/she half steps. When other cadets of his/her rank are abreast, he/she resumes marching at a 30-inch step. At the same time other cadets of the leading rank oblique twice to the right with out changing interval and will place themselves abreast of the pivot cadet and conform to his/her step. They execute the first oblique at the command of execution. The second oblique is executed when opposite their new line of march so that when the oblique is completed they will be marching toward the new front with proper interval. The ranks to the rear of the lead rank will execute the movement on the same point and in the same way as the leading rank. The remainder of the movement is executed the same as in marching.

4. During column movements, the platoon commander and guide execute either an oblique or a 90-degree pivot (depending on the direction of the movement) on the command of execution. After completing their turn, they adjust their line of march so that they are in front of the appropriate squad.

5. For slight changes of direction, the command is "Incline To The Right (Left)." At that command, the guide changes direction as commanded. This is not a precision movement and is executed only while marching.
Figure 8-5. Executing Column Right (Left).

8018. TO MARCH TO THE FLANK

1. The purpose of this movement is to march the platoon to the right or left flank for a short distance. It may be executed from any formation that is marching at quick time or double time cadence. The command is "By the Right (Left) Flank, MARCH." The command of execution is given as the foot in the direction of the turn strikes the deck.

2. To execute a right flank when marching at quick time, the command is "By the Right Flank, MARCH." On the command of execution "MARCH," everyone takes one more 30-inch step to the front with the left foot and then pivots 90 degrees to the right on the ball of the left foot. Stepping out of the pivot with a 30-inch step, the entire platoon marches in line to the right flank. The platoon commander and guide execute the flanking movement with the platoon, but do not change their position within the platoon. For the platoon to resume marching in the original direction, the command is "By the Left Flank, MARCH." To march to the left flank, substitute left for right and right for left in the above sequence. No other command may be given when marching to the flank until the unit has resumed marching to the original front. (See figure 8-6.)

3. When this movement is executed from a column at close interval, squad(s) to the rear of the squad that becomes the leading squad takes up the half step. They resume a full step as soon as a 40-inch distance has opened between squads. After such a movement, the platoon maintains normal interval until close march is commanded.

4. When marching at double time, on the command of execution "MARCH," everyone takes two more 36-inch steps to the front and then two 6-inch vertical steps in place at double time cadence. While stepping in place, everyone turns 90 degrees toward the direction commanded and then steps off with a 36-inch step in the new direction.

5. When the platoon executes flank movements from a column at close interval, squad(s) to the rear of the squad that becomes the leading squad, will take up a half step. They resume a full step as soon as a 40-inch distance has opened between squads. After such a movement, the platoon maintains normal interval until close march is commanded.
8019. TO MARCH IN THE OBLIQUE

1. The purpose of this movement is to shift the line of march to the right or left for a short distance and then resume marching in the original direction. It may be executed from any formation that is marching at quick time cadence. The command is "Right (Left) Oblique, MARCH." The word oblique is pronounced to rhyme with strike. The command of execution is given as the foot in the direction of the turn strikes the deck. The command to resume the original direction of march is "Forward, MARCH." The command of execution is given as the foot toward the original front strikes the deck.

2. To teach the platoon to march to the oblique, the leader aligns the unit and has members face half right (left). The leader then explains that these positions are maintained when marching to the oblique. This is achieved by individuals keeping their shoulders parallel to the persons in front and/or adjacent to them. The individual at the corner of the platoon towards the direction of the oblique is the base of the movement, and must maintain a steady line of march keeping his/her other shoulders blocked perpendicular to the direction of march.

3. To march the platoon in the right oblique, the command is "Right Oblique, MARCH." On the command "MARCH," everyone then takes one more 30-inch step to the
front with the left foot and pivots 45 degrees to the right on the ball of the left foot. Stepping out of the pivot with a 30-inch step, the entire platoon marches to the right oblique until given another command. (See figure 8-7.) For the platoon to resume marching in the original direction, the command is **"Forward, MARCH,"** in this case the command of execution will be given as the left foot strikes the deck. Everyone then takes one more step in the oblique direction with the right foot; pivots back to the original front and continue to march. To march to the left oblique, substitute left for right and right for left in the above sequence.

![Diagram of Marching to Right Oblique](image)

---

4. To halt the squad facing in the original direction of march the command is **"Platoon, HALT."** The command of execution **"HALT"** is given on the left foot when marching to the right oblique, and on the right foot when marching to the left oblique. At the command **"HALT,"** everyone takes one more step in the oblique direction, pivots to the original front on the toe of the right (left) foot, and places the left (right) foot beside the other at the position of attention.

5. To temporarily halt the squad in the oblique direction, in order to correct errors, the command is **"In Place, HALT."** The command of execution **"HALT"** may be given as either foot strikes the deck. At the command of execution **"HALT,"** the squad halts in two counts as in quick time and remains facing in the oblique direction. The only command that can be given after halting in place is **"Resume, MARCH."** At that command the movement continues marching in the oblique direction.

6. When given half step or mark time while marching in the oblique, the only commands that may be given are, **"Resume, MARCH,"** to continue marching with a 30-inch step in the oblique; or **"In Place, HALT."** to halt in the oblique in order to correct errors.

---

8020. TO MARCH TO THE REAR

1. The purpose of this movement is to march the platoon to the rear for a short distance. It may be executed when halted or marching forward at quick time or double time. The command is **"To the Rear, MARCH"** it will be given as the right foot strikes the deck when marching.

2. When halted, on the command of execution **"MARCH,"** everyone takes one 15-inch step to the front with the left foot and then pivots 180 degrees toward the right on the balls of both feet. Stepping out of the pivot with a 30-inch step, the entire platoon marches to the rear. For the platoon to resume marching in the
original direction, the command "To the Rear, MARCH" is given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

3. When marching at quick time, on the command of execution “MARCH,” everyone takes one 15-inch step to the front with the left foot and then pivots 180 degrees toward the right on the balls of both feet. Stepping out of the pivot with a 30-inch step, the entire platoon marches to the rear. For the platoon to resume marching in the original direction, the command "To the Rear, MARCH" is given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

4. When marching at double time, on the command of execution "MARCH," everyone takes two more 36-inch steps to the front and then four 6-inch vertical steps in place at double time cadence. On the first and third steps in place, everyone pivots 180 degrees to the right, 90 degrees on the first step and 90 degrees on the third. After the fourth step in place, and for the fifth step, they step off with a 36-inch step in the new direction. For the platoon to resume marching in the original direction, the command "To the Rear, MARCH" is given again. No other command may be given when marching to the rear until the unit has resumed marching to the original front.

8021. FILES AND REFORM

1. The purpose of these movements is to diminish the front of the platoon in column. They may be executed when the platoon is halted at attention in column of threes or fours, and when at normal or close interval. Squads may be taken from either the right or left side of the platoon. The command to form a column of twos is "Column of Twos from the Right (Left), MARCH." The command to form a column of files is "Column of Files from the Right (Left), MARCH." When the squad leaders give supplemental commands they turn their head and eyes toward the direction of the movement, give the supplemental command, and turn their head and eyes back to the front. When commanding, "Squad, HALT," the squad leaders turn their head and eyes in the direction of the halted element, regardless of the direction of the movement.

2. When forming a column of files and reforming to threes (fours) it is important to note, in order to keep from inverting the platoon, that:

   a. If a column of files were taken FROM the LEFT, then a column of threes (fours) must be formed TO the RIGHT.

   b. If a column of files were taken FROM the RIGHT, then a column of threes (fours) must be formed TO the LEFT.

3. Form a Column of Files and Reform.

   a. On the preparatory command "Column of Files From the Right," squad leaders turn their head and eyes to the right and give the following supplementary commands. Simultaneously, the third squad leader commands "Forward." The remaining squad leaders command, "STAND FAST." The guide remains in position. On the platoon commander's command of execution "MARCH," the third squad marches forward; the remaining squads stand fast, then as the fourth to the last member of the squad to the right is about to pass their position the squad leader.

      (1) The second squad leader turns his/her head and eyes to the right and commands "Column Half Right, Column Half Left, MARCH." The squad leader on his/her own command of execution "MARCH," steps in the right oblique then pivots back to the left, so as to march at normal distance in single file behind the leading squad. The remaining squad members march forward and execute the pivots on the same point as established by the squad leader. (See figure 8-10.)

      (2) The first squad leader turns his/her head and eyes to the right and commands "Column Half Right, MARCH" and "Column Half Left, MARCH" so as to march at normal distance in single file behind the leading squad.

   b. To reform into a column of threes, the command is "Column of Threes to the Left, MARCH." On the preparatory command, squad leaders, in sequence, give the following supplementary commands: the third squad leader turns his/her head and eyes to the left and commands "STAND FAST;" the second squad leader turns his/her head and eyes to the left and commands "Column Half Left, Column Half Right;" and
the first squad leader turns his/her head and eyes to the left and commands "Forward." On the platoon commander’s command of execution "MARCH:"

(1) The leading squad stands fast.

(2) The second squad leader takes one step in the left oblique then pivots back to the right, so as to be marching to the left of and parallel to the lead squad. The remaining squad members march forward and execute the pivots on the same point as established by the squad leader. The squad leader would continue to march forward until nearing the lead squad leader, at which time he/she turns his/her head and eyes to the right and gives the command "Squad, HALT." The squad is halted so that it is aligned with, and the proper interval from the two lead squads.

(3) The first squad marches forward until approaching the end of the lead squad. The squad leader then turns his/her head and eyes to the left and commands, "Column Half Left, MARCH." The squad leader then turns his/her head and eyes to the right and commands "Column Half Right, MARCH" in order to place his/her squad to the left of and at proper interval from the second squad. The squad would continue to march forward until nearing the second squad leaders, at which time the squad leader turns his head/her and eyes to the right and gives the command "Squad, HALT." The squad is halted so that it is aligned with, and the proper interval from the two lead squads.

c. To form a column of files from the left and reform to a column of threes to the right, use the same procedure as described in paragraphs 8021.3 a and b above substituting left for right and right for left. On the platoon commander’s preparatory command of "Column of Files from the Left," the guide changes position to be in front of the first squad leader. When reforming to threes, after all squads have halted, the guide moves back in front of the third squad leader.

4. Forming a column of files and reforming when in a column of fours is executed in a similar manner as when in a column of threes.

5. When marching in column of twos, the platoon commander is ahead of the left file and the guide is in front of the right file. When marching in single file, the guide leads the platoon, the platoon commander marches abreast of and to the left of the guide. If executing the movements for practice or instructional purposes the platoon commander would position himself/herself where he/she could best supervise the platoon.
Figure 8-10. Column of Files from Column of Threes and Reform.
CHAPTER 9
COMPANY DRILL

9000. GENERAL

1. A company consists of a company staff and two or more platoons.

2. Most NJROTC units will have three platoons in their company. Some units choose to make a separate platoon out of the unit’s drill teams and have them march under arms in major parades. Also, all NJROTC units will have a Color Guard. Local parade/march requirements will require flexibility on the part of the SNSI/NSI in the formation of the unit.

3. Formations used by the company are line, column (of threes, etc.), mass, extended mass, and column of platoons in line. In all these formations, the platoons that comprise the company will either be in line (each squad forming one rank) or in column (each squad forming one file). The company may also form column of files in a manner similar to that prescribed for a platoon, in which case the platoons are arranged as in column, except that each platoon is in column of twos or files. Formations of the company for drills and ceremonies, to include posts of cadet officers and key cadet petty officers, are shown in figures 9-1 through 9-4.

   a. When the company commander is absent, the senior officer present with the company takes post and drills the company as prescribed for the company commander. In the absence of the senior enlisted cadet, the next senior enlisted cadet takes post and performs the duties of the senior enlisted cadet.

   b. When officers are not present, after the company is formed, the senior enlisted cadet, or in his/her absence, the next senior enlisted cadet takes post and drills the company as prescribed for the company commander, and mustering petty officers take post and perform the duties of platoon commanders. This also applies when, for any reason, the company commander directs the senior enlisted cadet (or senior cadet or mustering petty officer to take charge of the company for purposes other than dismissing the company. When this occurs, the officers retire and the senior enlisted cadet and mustering petty officers march by the most direct route to take post as the company commander and platoon commanders, respectively.

   c. For drill and ceremonies, the following minimum key billets within the company must be filled by applying the above rules: company commander, guidon bearer, and senior enlisted cadet in the company staff; and a platoon commander, mustering petty officer, and guide for each platoon, plus one squad leader per squad within each platoon.

   NOTE: When officers are not present and the senior enlisted cadet and mustering petty officers are acting as company commander and platoon commanders respectively, cadets need not be detailed to also act as senior enlisted cadet and/or mustering petty officers.

   d. For drill and ceremonies, the company guidon is carried by the guidon bearer. In all formations, the guidon bearer is 1 pace to the rear and 1 pace to the left of the company commander or senior enlisted cadet, as appropriate.

9001. RULES FOR COMPANY DRILL

1. The platoon, rather than the company, is the basic drill unit. Only such formations are prescribed for the company as are necessary for marches, drills, and ceremonies.

2. In company drill, if all cadets in the unit are to execute the same movement simultaneously, platoon commanders will not repeat preparatory commands of the company commander when commands such as “FALL OUT” are given, which combine the preparatory command and command of execution. When the preparatory command of the company commander is “Company,” the platoon commanders give the preparatory command “Platoon.”
a. When in mass formation, platoon commanders repeat preparatory commands only when the order will require independent movement by a platoon.

b. When the platoons of the company are to execute a movement in successive order, such as a column movement, the platoon commander of the first platoon to execute the movement repeats the company commander’s preparatory command, and those of following platoons give an appropriate caution such as “Continue to March.” Platoon commanders of following platoons repeat the company commander’s preparatory command and command of execution at the proper time to cause their platoons to execute the movement on the same ground as the first platoon.

c. When participating in parades and ceremonies when commands by the adjutant, commander of troops, or company commander can be clearly heard, supplemental commands need not be given.

3. Platoon commanders turn their head and eyes when giving supplemental commands using the following rules.

a. When executing halted movements, such as the manual of arms, the platoon commander turns his/her head and eyes to the right.

b. For movements that involve marching, (e.g., forming from column into mass, mass into column or column movements) the platoon commander turns his/her head and eyes to the direction of the movement to give supplemental command.

c. When bringing the platoon on line with a halted element the platoon commander turns his/her head and eyes towards the halted element to give the command of mark time or halt.

4. When commands involve movements of the company in which one platoon stands fast or continues the march, while one or more of the others do not, its commander commands “STAND FAST” or “Continue to March,” as the case may be.

5. The company marches, executes change of direction, closes and extends intervals between squads in column, opens and closes ranks, and stacks and takes arms as in platoon drill.

6. The company executes marching in line only for minor changes in position.

7. Unless otherwise specified for the company to be at close interval, all changes in formation must be executed with files and ranks formed at normal interval and distance.

9002. TO FORM THE COMPANY

1. At the command “FALL IN,” the company forms in line formation at normal interval and distance. If it is desired to form the company at close interval between files, the command “At Close Interval, FALL IN” is given. In this case, the platoons form in line, but files within each platoon are at close interval (4 inches). The company forms at close interval only for roll calls or when space is limited. The company may be formed by the senior enlisted cadet or mustering petty officer under charge of the senior enlisted cadet, or by its officers under command of the company commander, as described below.

2. Forming the Company by Senior Enlisted Cadets

   a. The senior enlisted cadet takes post 9 paces in front of the point where the center of the company is to be, faces that point, draws sword if so armed, and commands “FALL IN” (“At Close Interval, FALL IN”). At this command, the guidon bearer takes post facing the front 1 pace to the front and 1 pace to the right of the senior enlisted cadet (the senior enlisted cadet facing the company), and the company forms in line with platoons in line at normal (close) interval and 4 paces between platoons. Each mustering petty officer takes post 3 paces in front of and facing the point where the center of the platoon is to be, faces that point, and draws sword if so armed. Each platoon then forms (as prescribed in paragraph 8004), under the supervision of the mustering petty officer.
b. Mustering petty officers then command “REPORT.” Remaining in position (at order arms if armed with the rifle), the squad leaders, in succession from front to rear in each platoon, salute and report, “All present,” or “Private ________ absent.” Mustering petty officers then command “Inspection, ARMS;” and “Order, ARMS” if troops are armed with rifles, then face about to the front. If troops are not armed with rifles, the mustering petty officer immediately faces the front after receiving the reports of the squad leaders. (NOTE: If platoons cannot be formed in regularly organized squads prior to forming the company, the mustering petty officers command “Inspection, ARMS;” “Right Shoulder, ARMS;” and call the roll. Each cadet answers “here,” and goes to order arms as their name is called. The mustering petty officer then organizes the platoon into squads and faces the front. (The manual of arms is omitted for personnel not armed with rifles.)

c. After all mustering petty officers have completed receiving the reports of their squad leaders and are facing the front, the senior enlisted cadet commands “REPORT,” at which time the mustering petty officers, beginning with the right platoon, successively salute and report, “All present or accounted for” or “ ________ absent.” The senior enlisted cadet returns each salute individually. What occurs next depends upon whether the company commander and platoon commanders receive the company or not.

(1) If company officers do not receive the formation, after receiving the reports of all the mustering petty officers, the senior enlisted cadet commands “POST.” On this command, the mustering petty officers and guidon bearer step forward three steps; simultaneously, the senior enlisted cadet faces about and steps forward three steps. The company is now formed with the senior enlisted cadet and mustering petty officers occupying the posts prescribed for the company commander and platoon commanders.

(2) If company officers receive the formation, the company commander and platoon commanders normally observe the initial procedures from a location to the rear of where the company is forming (officers remain with swords in their scabbards, if so armed). In this case, after receiving the reports of the platoon sergeants, the senior enlisted cadet faces the front and awaits the arrival of the company commander. When the company commander has taken post 12 paces front and center of the company, the senior enlisted cadet salutes and reports “Sir/Ma’am, all present or accounted for.” or “Sir/Ma’am, ________ cadets absent.” The company commander returns the salute, and may discuss absentees and issue necessary instructions to the senior enlisted cadet. Next, the company commander directs the senior enlisted cadet to “TAKE YOUR POST,” at which the guidon bearer marches forward 3 paces, and the senior enlisted cadet and mustering petty officers march by the most direct routes to their posts, the former in rear of the company, the latter on the left of the rear rank of their platoons; simultaneously, the company executive officer takes post to the rear of the company and the platoon commanders move around the right front of their platoons and take their posts 6 paces front and center of their platoons. After all officers are in position, if armed with the sword, the company commander draws sword; the company executive officer and platoon commanders draw sword with the company commander.

3. Forming the Company by Officers

a. Normally, the company is initially formed by the senior enlisted cadet or mustering petty officer, then received by the officers as described in paragraph 9002 above. This permits detailed musters to be taken by the staff noncommissioned or noncommissioned officers. During the course of training, if the company has been dismissed for a short period of time, it may be initially reformed by the company commander to save time.

b. When the company is initially formed by the company commander, the procedures are the same as forming with the senior enlisted cadet or mustering petty officer, except that the company commander takes post 12 paces front and center facing the point where the center of the company is to be, draws sword if so armed, and commands “FALL IN.” Platoon commanders then take posts 6 paces front and center and facing the point where the center of their platoons will be, draw sword if so armed, form their platoons and receive the reports of their squad leaders, then face the front. After all platoon commanders have formed their platoons and are facing the front, the company commander commands “REPORT,” at which time each platoon commander, in succession from right to left,
salutes and reports, “Sir/Ma’am, all present or accounted for,” or “Sir/Ma’am, cadets absent.”

Figure 9-1. --Company in Line Formation.

9003. TO DISMISS THE COMPANY

1. The commands are "SENIOR ENLISTED CADET" and "DISMISS THE COMPANY." The company being in line at a halt, at the command "SENIOR ENLISTED CADET," the senior enlisted cadet moves by the most direct route to a point 3 paces from the company commander (9 paces in front of the center of the company), halts, and salutes. The company commander returns the salute and passes any directions or information necessary to the senior enlisted cadet. The company commander directs the senior enlisted cadet to "DISMISS THE COMPANY." The senior enlisted cadet and company commander exchange salutes. After returning the senior enlisted cadet’s salute, the company commander returns sword, if so armed, and falls out. Other officers of the company return sword, if so armed, and fall out at the same time and in the same manner as described in paragraph 9001.2c. The mustering petty officers take their posts 3 paces in front of the centers of their platoons. The senior enlisted cadet, when the company commander returns his/her salute, executes an about face. When the mustering petty officers have taken their positions, the senior enlisted cadet commands "Inspection, ARMS;" and "DISMISSED."

2. The company being in line at a halt, dismissal may also be ordered by the command "DISMISS YOUR Platoons." The platoon commanders salute; the company commander returns their salute, returns sword, if so armed, and falls out. The platoon commanders execute about face and command "MUSTERING PETTY OFFICER." The platoon sergeant takes his/her post 3 paces in front of the center of the platoon halts, facing the platoon commander and salutes. The platoon commander returns the salute and passes any directions or information necessary to the mustering petty officer. The platoon commander then directs the mustering petty officer to "DISMISS THE PLATOON." The mustering petty officer and platoon commander exchange salutes. After the platoon commander has returned the mustering petty officer’s salute, he/she returns sword if so armed, and falls out. The mustering petty officer then faces the platoon and commands "Inspection, ARMS;" and "DISMISSED."

3. The senior enlisted cadet may cause platoons to be dismissed by the mustering petty officers by commanding "DISMISS YOUR Platoons." The mustering petty officers salute; the senior enlisted cadet returns the salute, returns sword if so armed, and falls out. The platoon sergeants then execute about face and command "Inspection, ARMS;" and "DISMISSED."

9004. BEING IN LINE, TO FORM COLUMN AND REFORM INTO LINE

1. Being at a halt and at the order in line, to form column, the company commander orders “Right, FACE.” After facing to the right, all officers, key
senior enlisted cadets or mustering petty officers, and the guidon bearer march by the most direct routes to their posts in column. The company commander may then cause the column to march (NOTE: As platoons and squads become inverted if the company is faced to the left, this should be done only for short movements.).

2. Being at a halt and at the order in column, to form line, the company commander commands "Left, FACE." (NOTE: If the company is at close interval they must be extended to normal interval, paragraph 8012, prior to executing left face. Otherwise there will not be 40 inches of distance between ranks.) After facing to the left, all officers, key mustering petty officers, and the guidon bearer march by the most direct routes to their posts in line.

NOTE: When in column, if the company is faced to the right, platoons and squads become inverted. Therefore, to form line facing the right flank of a column, the company should first be marched by executing necessary changes in direction, so that after halting the left, line will be formed facing the desired direction.

Figure 9-2.--Company in Column Formation.

9005. TO ALIGN THE COMPANY
1. To align the company when in line at a halt, the company commander commands, "DRESS RIGHT (CENTER, LEFT)." At the command "DRESS RIGHT," the platoon commander of the base platoon aligns his/her platoon immediately by the commands "Dress Right, DRESS;" "Ready, FRONT;" and "COVER." After the platoon commander of the base platoon gives the command to dress right, the remaining platoon commanders will align their platoons in successive order. When "DRESS CENTER" is given, the commander of the center platoon, which is the base platoon for this movement, aligns the platoon to the center of the company. The base platoon for this movement is the second platoon in both three and four platoon companies. After the base platoon commander has aligned the platoon, the remaining platoon commanders will align their respective platoons on the base platoon by executing "Dress Right (Left), DRESS;" "Ready, FRONT;" and "COVER," as explained in paragraph 8009.

2. To align the company when in mass formation at a halt, the company commander commands "Dress Right (Left), DRESS" or "At Close Interval, Dress Right (Left), DRESS;" "Ready, FRONT;" and "COVER."

   a. At the command "Dress Right (Left)," the platoon commander of the base platoon goes to carry sword if so armed.

   b. On the command of execution "DRESS," the platoon commander of the base platoon takes one step forward, executes a right flank, moves to a position 1 pace to the right of the right squad leader, executes another right flank and halts 1 pace to the right of the rank of squad leaders. He/she then executes a right face and verifies the alignment of the squad leaders in the same manner as alignment is verified in paragraph 8009. He/she then verifies the alignment of the rest of the company as described in paragraph 8009. (Note: During parades and ceremonies the platoon commander of the base platoon would normally only check the alignment of the 1st, 5th, 9th and 13th (last) rank.) After verifying the alignment of the last rank the platoon commander marches back to the front of the formation 1 pace past the guide. He/she then executes a left flank and moves, by the most direct route, back to his/her position at the head of his/her platoon. The platoon commander then halts, from the oblique, faces right and goes to order sword. When the platoon commander resumes his/her post, the company commander commands "Ready, FRONT" and "COVER."

3. To align the company when in extended mass formation at a halt, the company commander commands "Dress Right (Left), DRESS" or "At Close Interval, Dress Right (Left), DRESS;" "Ready, FRONT;" and "COVER." Alignment is verified as described in paragraph 9005.2b, above. Except that all platoon commanders move to verify the alignment of their platoons.

4. To align the company when in column, platoons in column, the command is "COVER." At that command, the second and following platoons obtain the proper 4-pace distances between platoons and cover on the files of the leading platoon. Each platoon aligns internally as prescribed in paragraph 9009.

5. To align the company when in column of platoons in line at halt, the company commander commands, "DRESS RIGHT (LEFT)." At this command, the leading platoon (which is the base platoon) is immediately aligned by its commander who commands, "Dress Right (Left), DRESS;" "Ready, FRONT;" and "COVER." After the platoon commander of the base platoon has given the command to align the platoon, the remaining platoon commanders in succession from front to rear give the command to align their platoons. Platoon commanders follow the procedures prescribed in paragraph 8009, and ensure that the guides are covered on the guide of the leading platoon.

9006. BEING IN COLUMN, TO CHANGE DIRECTION

1. Being at a halt or in march while in column, to change direction 90 degrees to the right (left), the company commander orders "Column Right (Left), MARCH." On the preparatory command, platoon commanders give the following supplementary commands: leading platoon commander, "Column Right (Left);" and remaining platoon commanders, "Forward," if initiated from a halt ("Continue to March," if initiated while marching). On the company commander’s command of execution "MARCH," the leading platoon executes a column right (left). Succeeding platoons march forward, and on the commands of their platoon commanders, execute a column right (left) on the same ground as the leading platoon.
2. To execute a 45-degree change in direction, the execution is the same as above, except the command "Column Half Right (Left), MARCH" is used. Platoon commanders give appropriate supplementary commands.

3. For slight changes in direction, on the command of the company commander to "INCLINE TO THE RIGHT (LEFT)," the guide of the leading platoon changes direction as commanded. Succeeding platoons march forward and change direction on the same ground as the leading platoon. No supplementary commands are given by the platoon commanders.

9007. COMPANY AWARDS FORMATIONS

1. The ceremonies that are normally conducted at the company level are, but not limited to, the following:
   a. Promotions/Advancements
   b. Cadet Awards
   c. Special Recognition

2. The company formation normally used for company ceremonies is the Company in Line.

3. The senior enlisted cadet forms the company in line with those personnel to receive awards, promotions, etc., forming a single rank behind the last squad of the first platoon. (See figure 9-6.) They are arranged in reverse sequence of presentation priority, to ensure that they are presented to the company commander in the appropriate sequence. (e.g., The junior award recipient would be first in line to march out.) The priority sequence will normally be:
   a. Cadet awards.
   b. Promotions/Advancements.
   c. Other certificates

   ![Figure 9-3.--Placing of Award Recipients for the Ceremony.]

4. The company is formed as depicted in paragraph 9002. After the senior enlisted cadet receives the report from the mustering petty officers he/she faces about and waits for the company commander to take the formation. The senior enlisted cadet executes a hand salute and reports the company to the company commander. The company commander returns the salute, and commands "TAKE YOUR POST."

   a. At this command, rather than taking his/her normal post at the rear of the company, the senior enlisted cadet will step off in the left oblique and march around the commander’s right, and continuing to march until he/she has positioned himself/herself 1 pace to the left and 1 pace to the rear of the company
commander. (See figure 9-7.) Platoon commanders take their post centered on their platoons, mustering petty officers post as shown in figure 9-7 and the guidon bearer takes 3 paces forward.

b. The senior enlisted cadet will then command “cadets to Receive Awards (be Promoted, Reenlisted, etc.), Center, MARCH.”

(1) On the command of “Center,” the cadets receiving awards execute a right face.

(2) On the command “MARCH,” the award recipients will step off and continue to march until they have cleared the guide of the first platoon. The senior cadet receiving an award will then command “Column Left, MARCH.” (See figure 9-7.)

(3) They will continue to march to a position that places them at a point half way between the line of platoon commanders and the company commander. The senior cadet will then command “Column Left, MARCH.”

(4) They will continue to march on this line until the rank of award recipients is centered on the company commander, at which time the senior cadet will command “Mark Time, MARCH;” “Detail, HALT;” “Right, FACE;” and “Hand, SALUTE.” (See figure 9-7.)

c. After the commander has returned the salute, the senior cadet will then command “Ready, TWO.”

5. The senior enlisted cadet or narrator, if one is used, will then read the first citation or warrant. The commander and the senior enlisted cadet will then step off and march directly to the first cadet and halt, so the commander is directly in front. The senior enlisted cadet will pass the award or warrant to the commander who will then present it to the cadet. After the cadet receives his/her citation the commander and the senior enlisted cadet will face to the right as in marching, and march until the commander is in front of the next cadet, halt, and execute a left face. The senior enlisted cadet or narrator will read the next citation and the commander will present it. They will continue until the last award or citation is presented. They will then face to the right as in marching, and march in the most direct route to their original positions.

6. Once the company commander and senior enlisted cadet are back in position, the senior enlisted cadet will then command “POST.” On the command “POST,” the senior cadet will command “Hand, SALUTE.” The entire detail will execute. After the commander returns the salute, the senior cadet commands “Ready, TWO” followed by “Left, FACE.”

7. The senior enlisted cadet then commands “Forward, MARCH.” On the command of execution “MARCH,” the award recipients under the command of the senior cadet will march forward until they are at a position past the mustering petty officer of the last platoon and command “Column Left, MARCH.” They will continue to march until they are 1 pace past the last rank of the last platoon, the senior cadet will then command “Column Left, MARCH.” They will continue to march to a position behind the last rank. The senior cadet will then command “Mark Time, MARCH;” “Detail, HALT;” “Left, FACE.” (See figure 9-7.)
8. This completes the ceremony. The company commander would then dismiss the company, turn the unit over to the senior enlisted cadet, or carry out the plan of the day.

9. When promoting a number of cadets to the same grade, it is appropriate to read only one warrant, inserting all of the names of the cadets being promoted/advanced at the appropriate place. However, one warrant is read for each grade being promoted (e.g., one warrant read for the two petty officers 2nd class, another warrant read for the five seamen, etc.)
