Recommended Online Resources

6th Grade Energy Research Project

✘ **Comparisons of Various Energy Sources**

<http://www.nucleartourist.com/basics/why.htm>

Learn the advantages and disadvantages to the use of coal, nuclear, hydroelectric, gas, oil, wind and solar energies.

✘ **EIA's Kids Page**

<http://www.eia.doe.gov/kids/energyfacts/index.html>

Find out information about every kind of renewable and nonrenewable energy sources: oil, natural gas, coal, nuclear, solar, wind, geothermal, biomass, hydro (water), ocean (tidal or wave), electricity, hydrogen.

✘ **Energy Resources**

<http://www.darvill.clara.net/altenerg/index.htm>

Find out information on Fossil fuels, Nuclear Power, Solar Power, Wind Power, Tidal Power, Hydroelectric Power, Geothermal Power, and Biofuels.

✘ **Hydrogen**

<http://www.eere.energy.gov/hydrogenandfuelcells>

Find out about Hydrogen Production and Hydrogen Delivery

✘ **U.S. Department of Energy**

<http://www.energy.gov/energysources/index.htm>

Federal site about energy resources, including gas, natural gas, coal, electricity and nuclear energy; environment, state data, prices, quick stats, and historical data.

✘ **World Book Online**

<http://www.worldbookonline.com>

Search for the energy source that you need to research. You will find reliable information and you will also find a list of recommended Web sites.

Reminder: World Book Online gives Citation Information at the end of the articles for your Bibliography.

**Username and password for World Book Online at home access are available in the TMS Library Media Center.
